## Empirical Studies In Theology

**Jan-Olav Henriksen**

## **Normativity And Empirical Research In Theology Empirical Studies In Theology:**

**Normativity And Empirical Research In Theology** Johannes Antonius van der Ven, Michael Scherer-Rath, 2004 In this publication researchers and academics from South Africa Great Britain Switzerland Germany and the Netherlands provide theoretical explanations and examples of empirical research with regard to the fundamental question of the role of theological normativity in empirical research in theological fields

**The Preacher as 'First Listener'** Filip De Cavel, 2020-07-15 The preacher's weekly assignment is brutally repetitive Fill the blank page by Sunday at least twice a month if not even more This book offers a biblical theological and empirical grounding to support the preacher's self reflective listening and sermonizing practices in order for the preacher to be aware of his/her spirituality of listening and discernment

**Shalom, the Spirit and Pentecostal Conversion** Grace Milton, 2015-08-17 In Shalom the Spirit and Pentecostal Conversion Grace Milton presents a uniquely practical theological model of Pentecostal conversion centered on empirical data from a congregational case study Pentecostal Charismatic conversion is commonly equated with a dramatic Damascus road type event which directly opposes prevailing theories within the social sciences that conversion is a more gradual process over time This raises the question how far do these Pentecostal stereotypes reflect lived experience In this book for the first time the experiences and beliefs of ordinary Pentecostal believers are drawn into conversation with conversion theories from the human sciences sociology psychology and anthropology and theology The result is a distinctly Pentecostal model of conversion which interprets religious transformation through the theological lens of Shalom

**Doing Research in Practical Theology** Jos de Kock, Mirella Klomp, 2025-11-21 Doing Research in Practical Theology provides a step by step introduction to setting up and executing high quality practical theological research This how to handbook provides an accessible resource for students in Practical Theology who are in the process of developing and carrying out a research project The structure systematically follows a number of core questions to be answered in any practical theological study allowing the reader to reflect on eight basic steps that will help in their research in practical theology With a pragmatic approach and examples from recently published case studies this book appeals to researchers in Practical Theology particularly master's and PhD students and their supervisors At the end of each chapter questions for reflection are presented These are useful both for executive researchers whether master's students or senior researchers and for those who supervise research either as master's thesis supervisor or promotor of a PhD study

**What Really Matters** Jonas Idestrom, Tone Stangeland Kaufman, 2018-06-11 This volume is about ecclesiology and ethnography and what really matters in such academic work How does material from field studies matter in a theological conversation How does theology in various forms matter in analysis and interpretation of field work material How does method matter The authors draw on their research experiences and engage in conversations concerning reflexivity normativity and representation in qualitative theological work The role and responsibility of the researcher is addressed from various perspectives in the first part of the

book In the next section the authors discuss ways in which empirical studies are able to disrupt the implicit and explicit normativity of ecclesial traditions and also how theological traditions and perspectives can inform the interpretation of empirical data The final part of the book focuses on the process of creating the stuff that represents the ecclesial context under study What Really Matters is written to serve students and researchers in the field of ecclesiology and ethnography systematic and practical theology and especially those who work empirically or ethnographically broadly speaking The book might be particularly helpful to those who deal with questions of methodology in these academic disciplines This volume offers perspectives that grow out of the Scandinavian context yet it seeks to participate in and contribute to a scholarly conversation that goes beyond this particular location **Difficult Normativity** Jan-Olav Henriksen,2011 Research is directed by normative standards which need to be transparent in order to secure the quality of the scholarly discussion The aim of this book is to contribute to such transparency in relation to research on religion and theology representing a combination of empirical and normative claims themselves What does this combination of empirical and normative claims imply for the normative standards of research The contributions in this volume discuss different normative dimensions in contemporary research on religion and theology Presenting articles from systematic theology practical theology sociology of religion ethics religious studies and missiology it covers a wide range of issues that are relevant for PhD students of theology and religious studies as well as for others who are involved in research on these topics **American Book Publishing Record** ,2003

**Journal of Feminist Studies in Religion** ,2006 *Theology and Religious Studies in Higher Education* D.L. Bird,Simon G. Smith,2009-03-22 A collection of essays by some of today s leading academics on the sometimes contentious relationship between religious studies and theology **The Writers Directory** ,2013 *Critical Theory and Liberation Theology* Margaret M. Campbell,1999 Critical Theory and Liberation Theology discusses two major features of the crisis of western modernity the first of these arises from the assumption that any value based societal critique rests upon an arbitrary or purely emotive choice of first principles The second is that the Christian churches have not developed an understanding of the relationship between faith and modernity that enables them to be a consistent or liberating voice in public affairs In response to this crisis Margaret Campbell traces Jrgen Habermas s search for a means by which questions regarding human authenticity and emancipation can be brought into the arena of rational political discourse Dr Campbell also presents an account of Gustavo Guti rrez s liberation theology and describes it as a new kind of critical discourse about Christian faith one that begins by examining the political praxis of Christians Dr Campbell concludes that together Habermas and Guti rrez have provided us with foundations for a theology of communicative and liberating praxis **Hermeneutics And Empirical Research In Practical Theology** C. A. Chris A. M. Hermans,Mary Elizabeth Moore,2004 The contributors of this volume reflect on the writings of Hans van der Ven on the foundations of practical theology the empirical paradigm within practical theology and specific subdisciplines within practical theology especially religious education moral education church development and

ministry    Encyclopedia of Religion ,2005    *The Philosopher's Index* ,2009 Vols for 1969 include a section of abstracts

**Sociological Abstracts** Leo P. Chall,2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers    **Unconventional Partners** Robert Booth Fowler,1989    Religious and Theological Abstracts ,1999    **Empirical Theology in Texts and Tables** Leslie J. Francis,Mandy Robbins,Jeff Astley,2009 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate In this pioneering collection of focused essays leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns    Stanford Bulletin ,2002    *Review of Religious Research* ,1993
