Art and Idea in the Novels of China Miéville Carl Freedman, 2015-09-07 This book offers in the first six chapters critical readings of six novels by China Miéville which are followed in the seventh chapter by a theoretical meditation on some of the conceptual issues raised by and engaged in the Miéville oeuvre There comes a moment in *The City* though it is not necessarily the same moment for every reader when you realise that Beszel and Ul Qoma are not separate realms but the same space divided Likewise art and idea are often subject to absurd partition but then along comes an author such as China Miéville who shows them to be in truth indissoluble So argues Freedman's inordinately readable and just as rigorous account of Miéville's major novels Highly recommended Mark Bould University of the West of England Freedman offers a compelling interpretation of Miéville's novels informed equally by an impressive range of literary influences and a carefully documented exploration of historical antecedents Seeing Miéville's genre hybridity as an illustration of the power of dialectical thinking Freedman illuminates the complex utopian project of Miéville's fiction Freedman is one of our finest critical voices on Miéville one of the most important speculative writers of the 21st century Sherryl Vint University of California Riverside

Handbook of Scientology James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology's background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trospen Schorey Michelle Swainson Inga Brdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller

Star Wars in Context Nader Elhefnawy, 2018-05-02 We often hear about the inspirations for and impact of Star Wars but most of the discussion tends to be vague cursory and ill informed STAR WARS IN CONTEXT aims to do better explaining and in cases debunking what others tend to just assume This second edition of the book over twice the length of the original not only updates the discussion but expands on it covering such questions as How did George Lucas's earlier films THX 1138 American Graffiti lead to Star Wars In what ways did Akira Kurosawa's films Joseph Campbell Bruno Bettelheim Carlos Castaneda and the James Bond movies actually influence the films creation Where did the idea of the Force come from and why does it seem so vague and slippery As it happens Castaneda had a lot to do with it Why did fans react so strongly against the prequels and then become so much more accepting of them later What part did Star Wars actually play in creating the movie blockbuster and film market as we now know it Going from Modernism to the globalization of the entertainment industry from New Age mysticism to journalistic popoptimism in its search for the answers STAR WARS IN CONTEXT sets the record straight on all this and much more
