## Nordic Peace:

**Nordic Peace in Question** Christopher S. Browning, Marko Lehti, Johan Strang, 2024-07-18 This book explores historically and theoretically Nordic peace as a marker of identification ontological in security and regional branding. It emphasizes how conceptions of Nordic peace have been translated into policy practices and how it has maintained its relevance over time. The book distinguishes between the Nordic region as a region of peace a prime example of a Deutschian security community and as a region for peace cultivating the role of a global humanitarian norm promoter and peacebuilder but also interrogating how these two understandings of Nordic peace have been mutually constitutive and interdependent. The book discusses the politics of Nordic peace analyzing what the concept does and enables and why it continues to endure and exert affective appeal. Furthermore it considers contemporary challenges not least connected to the implications of the war in Ukraine but also the potential future opportunities facing ideas of Nordic peace as Nordic peace is refashioned once again towards a new regional and global context. This book will be of key interest to scholars and students of Peace Research, Nordic or Scandinavian Studies, History, Nationalism Studies, Critical Security Studies and International Relations. The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license. *New Nordic Peace: Nordic Peace and Conflict Resolution Efforts* Hagemann, Anine, Bramsen, Isabel, 2019-04-09 For a long time the Nordic countries have been a region of peace with the ability to resolve conflicts peacefully among themselves and a region for peace actively promoting peace globally. Although efforts to actively brand the Nordic region are ongoing the Nordic Peace brand is an area with untapped potential. The Nordics have rich traditions for working together on peace and conflict resolution. These joint efforts have grown organically and informally from like mindedness letting the common Nordic culture and ways of working foster integration among them where relevant. The people working in the Nordic countries on Nordic cooperation and peace recognize the potential of strengthening the Nordic Peace brand. One area of special potential is increasing focus on the shared Nordic priorities of prevention and the women peace and security agenda as part of the Nordic Peace brand.

GlobalArctic Gunnar Rekvig, Matthias Finger, 2025-06-13 The third volume in the Global Arctic series examines the transformation of Arctic governance following the 2022 outbreak of war in Ukraine. This conflict has disrupted the post Cold War cooperative circumpolar order upending decades of multilateral collaborations. The book traces the Arctic's evolution from Cold War great power competition to a focus on human security and cooperation highlighting the Arctic Council's establishment and the growth of the Arctic family with non Arctic actors. It explores how climate change became a key driver for Arctic re engagement opening new opportunities and challenges. The 2022 invasion of Ukraine has dramatically altered this landscape ending the post Cold War era of collaboration and ushering in the post post Cold War era raising critical questions about regional cooperation, climate change mitigation and global security. This book brings together diverse expert

perspectives to analyze the rapidly changing geopolitical dynamics of the Arctic. It explores the tension between collaboration needs and resurgent great power competition offering valuable insights for policymakers, scholars, and students. As global power dynamics shift and climate change threatens understanding Arctic governance challenges becomes imperative. This book serves as an essential resource for navigating the complex Arctic political landscape and examining how new divisions are reshaping the region's future.

### **Nation Branding and International Politics** Christopher S. Browning, 2023-10-15

Nation branding is regarded as essential for competitiveness among countries but the idea of branding nations is often derided as lacking seriousness. While nation branding has been on the radar of scholars of marketing, communication, and media studies as well as political geography for decades it has only made a small dent into the international relations field. In *Nation Branding and International Politics* Christopher Browning argues that international relations should take nation branding seriously. Nation branding not only involves the issues of culture, identity, and status which are of principal concern to IR but it is also a different and potentially fruitful way of reconceptualizing statehood. Mobilizing work on ontological security, anxiety, status, and distinction and grounding the analysis in a broader historical context, Browning finds that nation branding is politically significant though not necessarily for the reasons its advocates claim. Specifically the book raises important questions about nation branding's influence on the constitution of national identity, the reframing of citizenship, and the topography of contemporary geopolitics. *Nation Branding and International Politics* considers how status, prestige, and reputation are constructed and maintained in international society and how perhaps this construction and maintenance may be changing just as the practice of nation branding is changing.

The Nordic Peace Clive Archer, Pertti Joenniemi, 2017-09-29 The first authoritative account concerning the lack of conflict in the Nordic region this text evaluates why the area is more peaceful than the rest of Europe and whether there is a lesson to be learned from the area. Looking at cases where parts of the Nordic area have started to break away from the others and how this was achieved without violence it also explores the settlement of demarcation disputes. By using this region as an example for the rest of Europe this book tests the hypothesis of the Nordic Peace using a number of approaches including historical, political science, peace research, sociology, and law. This highly insightful piece of research is relevant for courses in international relations and European studies.

Oddvar K. Hoidal, 1989 A biography of Vidkun Quisling focusing on his role in the political life of Norway before and during World War II. The racism of his National Union Party was directed mainly against Jews with systematic attacks in the party press. Despite the small number of Jews in Norway Quisling maintained that they were a threat because of their Bolshevik connections and their possession of the world's wealth stating that the Jews wanted to incorporate Norway into a Marxist world state under their domination. He attacked a proposal to allow Jewish refugees to settle in Norway in the 1930s. Quisling conspired with the Nazis to occupy Norway and served as Minister President under their authority. Incarceration of Jews and

confiscation of their property began in 1941 and deportations in the fall of 1942 most of those deported died in Auschwitz At Quisling s trial for treason after the war one of the counts of the indictment was that he contributed to the death of Jews by encouraging their deportation to Nazi extermination camps He was executed in October 1945
