Mathematics Robert G. Stein, 1975-01-01 **Math for Teachers** Robert G. Stein, 2010-07-22 *Math for Teachers An Exploratory Approach* *Math* Judith A. Stein, **Math for Teachers** Robert G. Stein, 2002-07-01 *Math for Teachers* Stein, 2004-07-23 **Mathematical Challenges For All** Roza Leikin, 2023-03-17 This book argues that mathematical challenge can be found at any level and at every age and constitutes an essential characteristic of any mathematics classroom aimed at developing the students mathematical knowledge and skills Since each mathematics classroom is heterogeneous with respect to students mathematical potential quality mathematical instruction results from matching the level of mathematical challenge to different students potential Thus effective integration of mathematical challenge in the instructional process is strongly connected to the equity principle of mathematics education In the three sections in this volume readers can find diverse views on mathematical challenges in curriculum and instructional design kinds and variation of mathematically challenging tasks and collections of mathematical problems Evidence based analysis is interwoven with theoretical positions expressed by the authors of the chapters Cognitive social and affective characteristics of challenging mathematical activities are observed and analyzed The volume opens new avenues of research in mathematics education and pose multiple questions about mathematical instruction rich in mathematical challenge for all The authors invite readers to explore and enjoy mathematical challenges at different levels **Symbolizing and Communicating in Mathematics Classrooms** Paul Cobb, Erna Yackel, Kay McClain, 2012-11-12 This volume grew out of a symposium on discourse tools and instructional design at Vanderbilt University in 1995 that brought together a small international group to grapple with issues of communicating symbolizing modeling and mathematizing particularly as these issues relate to learning in the classroom The participants invited to develop chapters for this book all internationally recognized scholars in their respective fields were selected to represent a wide range of theoretical perspectives including mathematics education cognitive science sociocultural theory and discourse theory The work is distinguished by the caliber of the contributors the significance of the topics addressed in the current era of reform in mathematics education and the diversity of perspectives taken to a common set of themes and issues The book is intended for those who are seeking to expand their understanding of the complexity of learning in order to enhance the learning experiences students have in schools primarily researchers instructional designers and graduate students in mathematics education as well as those in other fields including science education instructional design in general discourse theory and semiotics *Mathematics for Teachers* Robert G. Stein, Laura Wallace, 2006 **Additional Mathematics** S. W. Li, W. H. Wong, C. M. Yeung, 1997 **International Reflections on the Netherlands Didactics of Mathematics** Marja van den Heuvel-Panhuizen, 2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME

the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education
