## **Matter And Spirit Their Convergence In Eastern Religion Marx And Teilhard De Chardin:**

**Matter and Spirit** Robert Charles Zaehner, 1963     America's Teilhard Susan Kassman Sack, 2019 *America's Teilhard Christ and Hope* in the 1960s is a study of the reception of Teilhard in the United States during this period and contributes to an awareness of the thought of this important figure and the impact of his work. Additionally, it further develops an understanding of U.S. Catholicism in all its dimensions during these years and provides clues as to how it has unfolded over the past several decades. Susan Sack argues that the manner and intensity of the reception of Teilhard's thought happened as it did at this point in history because of the confluence of the then developing social milieu, the disintegration of the immigrant Catholic subculture, and the opening of the church to the world through Vatican II. Additionally, as these social and historical events unfolded within U.S. culture during these years, the way Teilhard was read and the contributions which his thought provided changed. This book considers his work as a carrier at times for an almost Americanist emphasis upon progress, energy, and hope. In other years, his teleological understanding of the value of suffering moves to center. Additionally, the stories of numerous persons, scientists, theologians, politicians, and scholars who became involved in the American Teilhardian effort are detailed.

**Knowledge and the Sacred** Seyyed Hossein Nasr, 1989-07-03     Oriental Enlightenment J.J. Clarke, 2002-09-11. What is the place of Eastern thought: Buddhism, Taoism, Hinduism, Confucianism in the Western intellectual tradition? *Oriental Enlightenment* shows how, despite current talk of globalization, there is still a reluctance to accept that the West could have borrowed anything of significance from the East and explores a critique of the orientalist view that we must regard any study of the East through the lens of Western colonialism and domination. *Oriental Enlightenment* provides a lucid introduction to the fascination Eastern thought has exerted on Western minds since the Renaissance.

**Journeys East** Harry Oldmeadow, 2004-04-28. *Journeys East* tells the story of the twentieth century's encounters between East and West by exploring the lives of many of the most fascinating scientists, intellectuals, artists, and spiritual seekers of our time.

Eastern Influences on Western Philosophy A. L. Macfie, 2019-08-05. This Reader explores the extent of Oriental influence on European thought, primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it. It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers.
