MORAL DISCERNMENT

Moral Discernment

Gordon Reginald Dunstan

Moral Discernment:

Moral Discernment in the Christian Life James M. Gustafson, Theodoor Adriaan Boer, Paul E. Capetz, 2007-01-01 James M Gustafson has been a leading and formative figure in the field of Christian ethics over the past fifty years His many contributions to theological ethics have helped to define and shape ethical thinking by Christians who reflect on great moral issues Gustafson's work must be dealt with by all students in this discipline and his perceptive insights have given clarity and guidance to the process of moral discernment The essays collected here are ones that have had a significant impact on discussions and debates over recent decades The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field

Listening for God Howard Lesnick, 2007-08 Listening for God proceeds from the author's belief that across a wide spectrum of outlooks people are attracted to religion yet wary of it The book is intended to speak in an honest and reflective way to those who have conflicting feelings about religion and are put off by the needlessly polarized and blithely self-assured style of much writing about it Grounded in his own religious tradition yet manifesting great respect and appreciation for other traditions Lesnick recounts the odyssey of his own encounter with religion from a mild form of conventional adherence to Conservative Judaism as an adolescent to a long period of alienation from all religion to a gradual and deepening re-engagement with Judaism through his sympathetic exposure to religions Lesnick articulates the ways in which the author has found it illuminating to turn to religion as an aid to discernment of moral truth rather than as a source of metaphysical knowledge or belief The God of which he speaks is both the repository of truth about moral life and force that draws him to struggle to discern and follow it The book offers the reader a bridge between apparent polarities too often found in the world and ourselves between emotion and reason experience and authority knowledge and belief faith and doubt ethics and ritual hope and despair Written by a teacher of law it asks where do moral imperatives come from and how do the answers found in religion and in law affect one another Listening for God is a record of and a grateful prayer for sustaining courage and hope in a fallen world

Becoming Simple and Wise Joshua A. Kaiser, 2015-04-15 How does a Christian discern the will of God While this question lies at the heart of the Christian moral life religious communities struggle to articulate responses that balance simple faith and rational reflection Some characterize discernment as simple obedience to the commandments in Scripture others portray it as an exercise of human reason and conscience Dietrich Bonhoeffer the German theologian pastor and political conspirator who embodied a life of discernment amidst difficult circumstances in WWII Germany offers a compelling theological account of how to seek and respond to God's will By tracing Bonhoeffer's understanding of moral discernment throughout his writings and especially in his Ethics Joshua Kaiser demonstrates the importance of discernment for Bonhoeffer's vision of Christian ethics and explores how his view combines elements of simple faith and rational reflection

While the results of the study will be significant for those interested in Bonhoeffer they will also be relevant to all who struggle along the path of Christian discipleship

Moral Discernment Richard M. Gula, 1997 What should I do How do I know that I am doing right In the midst of so many changes in church society and culture many of us are bewildered about what's right and about how to discover what we ought to do This useful and timely book will help adults who are trying to be critical about their faith and moral living to interpret how conscience works in making moral decisions First off Gula shows that conscience is not a law unto itself but must be formed in community by appealing to sources of moral wisdom Then he gives a fuller treatment of moral discernment pointing up three spheres of influence on the process of discernment social situational and personal The final section moves from the theoretical model of discernment to the practical application of providing moral guidance in the pastoral domain Each chapter begins and ends with some guide questions to focus reflection and to stimulate discussion

Moral discernment in the churches : a study document ,2013 This study aims to be a tool to aid churches in both developing a deeper self understanding of their own processes of moral discernment and offering a framework within which dialogue about moral disagreements can take place The purpose of the study is to describe the causative factors of disagreement over moral issues and to prepare the ground for future ecumenical dialogue around moral issues Introduction p 2 3

Moving into the Ecumenical Future John W. Crossin OSFS, 2022-11-11 Moving into the Ecumenical Future identifies some necessary foundations of any paradigm for Ecumenical Ethics It emphasizes the guidance of the Holy Spirit the teaching and example of Jesus biblical foundations and pastoral relationships in developing paradigms for Ecumenical Ethics The book suggests that virtue ethics is an important paradigm that includes these elements The text explores how the Faith and Order Tool Receptive Ecumenism Differentiated Consensus Internal Polarities and Spiritual Discernment can be used to move toward moral consensus The author calls for a national or international task force to explore these foundations in greater depth

Tragic Dilemmas in Christian Ethics Kate Jackson-Meyer, 2022 The Philosophical and Theological Problems with Moral and Tragic Dilemmas The Problems with Augustinian Approaches to Moral and Tragic Dilemmas The Problems with Thomistic Approaches to Moral and Tragic Dilemmas A Proposal for a Christian View of Tragic Dilemmas Christian Approaches to Healing after Tragic Dilemmas

Poorman,1993 Poorman brings together ethics and pastoral practice in an interactional model that captures the distinctive character of Christian pastoral counseling His work is especially important in a culture that often confuses pastoral counseling with therapy It also challenges traditional notions which portray the pastoral minister as an instructor who dispenses the church s moral teaching Poorman distinguishes the pastoral task from that of therapist or teacher while drawing on the best resources of contemporary psychology and moral development theories he brings moral theology into lively conversation with pastoral experience at the same time his clear presentation brings a critical method of moral discernment to Christian ministry which is rooted in faith and the wisdom of the community **Principles and Practice of Morality, Or, Ethical Principles Disclosed and Applied** Ezekiel Gilman Robinson,1891 **Becoming Good, Becoming Holy** Mark O'Keefe, O.S.B., *Principles and Practice of Morality* Ezekiel Gilman Robinson,1888 This book has been made for a service which no one of its predecessors could be persuaded to render It embodies the lectures its author has given to his classes in Ethics and is what it purports to be distinctively a text book It touches existing controversies only so far as is necessary for the elucidation or defence of its own positions The aim has been to condense rather than to expand its discussions and to diminish rather than to multiply its pages Preface Bothering to Love Vogt, Christopher P.,Ward, Kate,2024-08-28 Churches and Moral Discernment Myriam Wijlens,Vladimir Shmaliy,2021 *Duty and Discernment* Gordon Reginald Dunstan,1975 The Westminster Review ,1875 Aristotle and the Problem of Moral Discernment Paul

Schuchman,1980 The present study represents a preliminary philosophical interpretation of the concept of moral discernment or phronesis in the Ethics of Aristotle Taking his standpoint from certain trends in contemporary transcendental philosophy the author suggests a possible approach to the problem of the norm for moral and political judgment in Aristotle's thought Relevant texts from the Ethics are interpreted within an ontological context and a brief criticism of traditional viewpoints is presented
