This collection contains all my published papers both research and expository that were published from 1934 to 1988. The research papers arranged in chronological order appear in Volume I and II and in the first part of Volume III. The expository papers which are mainly reports presented at conferences appear in chronological order in the last part of Volume III. Volume I covers the period 1910 to 1947, the year I moved to Yale. Volume II covers the period 1947 to 1965 when I became Chairman of the Department at Yale and Volume III covers the period from 1965 to 1989 which goes beyond my assumption of an emeritus status in 1981. I have divided the time interval covered in each volume into subintervals preceded by an account of my personal history during this period and a commentary on the research papers published in the period. I have omitted commentaries on the expository papers and have sorted out the commentaries on the research papers according to the principal fields of my research. My recollections checked against written. The personal history has been based on documentation in my file of letters as well as diaries. One of these was a diary I kept of my trip to the USSR in 1961; the others were diaries Florie Florence kept during other major visits abroad. I have also consulted Professor A. W. Tucker on historical details on Princeton during the 1930s.

This publication was made possible through a bequest from my beloved late wife. United together in this present collection are those works by the author which have not previously appeared in book form. The following are excepted: Vorlesungen über Differential und Integralrechnung Lectures on Differential and Integral Calculus Vols 1, 3 Birkhäuser Verlag Basel 1965, 1968; Aufgabensammlung zur Infinitesimalrechnung Exercises in Infinitesimal Calculus Vols 1, 2a, 2b and 3 Birkhäuser Verlag Basel 1967, 1977; two issues from Memorial des Sciences on Conformal Mapping written together with C. Gattegno Gauthier Villars Paris 1949; Solution of Equations in Euclidean and Banach Spaces Academic Press New York 1973; and Studien über den Schottkyschen Satz Studies on Schottky's Theorem Wepf Co Basel 1931. Where corrections have had to be implemented in the text of certain papers, references to these are made at the conclusion of each paper. In the few instances where this system does not for technical reasons seem appropriate, an asterisk in the page margin indicates wherever a correction is necessary and this is

then given at the end of the paper There is one exception the corrections to the paper on page 561 are presented on page 722 The works are published in 6 volumes and are arranged under 16 topic headings Within each heading the papers are ordered chronologically according to the date of original publication
