Maths For Map Makers:

Maths for Map Makers Arthur L. Allan, 2004-02 This book is designed to assist anyone with the mathematics involved in map making. It starts from an elementary standpoint and progresses to give the student a sufficient level of understanding to cope with most topics encountered by the map maker. *Maths for Map Makers* Arthur L. Allan, 1999-08 Will assist anyone with the mathematics involved in map making. It starts from an elementary standpoint in which no previous knowledge is assumed. It progresses to give the student a sufficient level of understanding to cope with most topics encountered by the map maker including those of elementary surveying. A large number of worked examples are given together with exercises with answers for the reader to perform. First it presents mathematical topics and concepts in a problem oriented manner which enables the relevance of each topic to be made clear. The second part contains a glossary, formulae summaries.

Teaching Mathematics Creatively Linda Pound, Trisha Lee, 2021-09-30 This revised and updated third edition offers a range of strategies, activities and ideas to bring mathematics to life in the primary classroom. Taking an innovative and playful approach to maths teaching, this book promotes creativity as a key element of practice and offers ideas to help your students develop knowledge, understanding and enjoyment of the subject. In the creative classroom, mathematics becomes a tool to build confidence, develop problem solving skills and motivate children. The fresh approaches explored in this book include a range of activities such as storytelling, music and construction, elevating maths learning beyond subject knowledge itself to enable students to see mathematics in a new way. Key chapters of this book explore Learning maths outdoors, make more noise, make more mess or work on a larger scale. Everyday maths, making sense of the numbers, patterns, shapes and measures children see around them. Music and maths, the role of rhythm in learning and music, and pattern in maths. Stimulating, accessible and underpinned by the latest research and theory, this is essential reading for trainee and practising teachers who wish to embed creative approaches to maths teaching in their classroom.
