Matibe Artists By Themselves:

Native North American Art Janet Catherine Berlo, Ruth Bliss Phillips, 2015 This lively introductory survey of indigenous North American arts from ancient times to the present explores both the shared themes and imagery found across the continent and the distinctive traditions of each region. Focusing on the richness of artwork created in the US and Canada *Native North American Art* Second Edition discusses 3 000 years of architecture, wood and rock carvings, basketry, dance, masks, clothing and more. The expanded text discusses twentieth and twenty first century arts in all media including works by James, Luna, Kent, Monkman, Nadia, Myre, Jaune, Quick to See, Smith, Will, Wilson and many more. Authors Berlo and Phillips incorporate new research and scholarship examining such issues as art and ethics, gender representation and the colonial encounter. By bringing into one conversation the seemingly separate realms of the sacred and the secular, the political and the domestic and the ceremonial and the commercial, *Native North American Art* shows how visual arts not only maintain the integrity of spiritual and social systems within Native North American societies but have long been part of a cross cultural experience as well.

Contemporary Native American Artists Suzanne Deats, 2012-06 Text and photographs detail the lives and art of contemporary Native American artists working in painting, sculpture, pottery, jewelry and clothing. *Native American Art in the Twentieth Century* W. Jackson Rushing III, 2013-09-27 This illuminating and provocative book is the first anthology devoted to Twentieth Century Native American and First Nation art. Native American Art brings together anthropologists, art historians, curators, critics and distinguished Native artists to discuss pottery, painting, sculpture, printmaking, photography and performance art by some of the most celebrated Native American and Canadian First Nation artists of our time. The contributors use new theoretical and critical approaches to address key issues for Native American art including symbolism and spirituality, the role of patronage and museum practices, the politics of art criticism and the aesthetic power of indigenous knowledge. The artist contributors who represent several Native nations including Cherokee, Lakota, Plains, Cree and those of the Plateau country emphasise the importance of traditional stories, mythologies and ceremonies in the production of contemporary art. Within great poignancy they write about recent art in terms of home, homeland and aboriginal sovereignty. Tracing the continued resistance of Native artists to dominant orthodoxies of the art market and art history, *Native American Art in the Twentieth Century* argues forcefully for Native art's place in modern art history.
