Choices Sara Thomas, 2008-10 *Choices* is a truly inspiring book with a very positive tone to it that would inspire and motivate its readers to view life's situations and circumstances from a positive angle This book is a must read for every professional and every individual who wants to better decision makers better parents and better at everything they do The book urges us to pay close attention to our choices that determine our future who we are and who we become It reveals how our choices

affect our lives and the lives of those around us The Book reveals how everything in life success failure losses gains and lifes issues are all the outcome of our own choices A true original the thoughts presented in this book are right on target The book combines non fiction with fiction in a very effective manner while encompassing such a wide range of topics The first half of the book deals with a very practical approach of how to overcome barriers and strategize our life to make the most out of it followed by a few humorous yet touching illustrations of the consequences of our poor choices represented by the life of Laloo laddoowala While bubbly is yet another character many of us will relate to The book has a compelling philosophical tone to it and it ends on a very spiritual note that will touch its readers at a very personal level **The enquirer's oracle:**
