Applied Business Ethics:

Foundations For Study And Daily Practice Mathias Schuz, 2019-06-14 What has ethics got to do with my job How can I take on ethical responsibility and help to make my company more successful at the same time Although ethical responsibility has become something of a catchphrase these days most people only have a vague idea what it means and how it can be demonstrated in actual practice Disasters like the Volkswagen's emission scandal the oil spill in the Gulf of Mexico the nuclear meltdown of Fukushima the global financial crisis and countless lesser known cases of damage to human beings and the environment are the result of unethically irresponsible business practices Efforts to maximize profits frequently lead to reckless behavior as those in charge focus on short term benefits and ignore social and environmental risks Their actions have negative consequences not only for the victims but in many cases for the perpetrators themselves too Aggrieved interest groups or disadvantaged stakeholders may react with strikes public protests or boycotts jeopardizing their reputation and profitability This textbook Applied Business Ethics is the result of many years of research work and lecturing and is an attempt to present the most important principles and the latest approaches in business ethics to students teachers and business practitioners alike and help them to make business decisions that everyone concerned will benefit from rather than just a few fortunate stakeholders The author illustrates his theoretical subject matter with practical examples of real life situations and provides numerous exercises to help the reader grasp complex issues moral dilemmas and business risks better In clear accessible and easily understandable terms he demonstrates how ways of finding satisfactory solutions can be found in a systematic way thanks to interdisciplinary research and philosophical reflection

Ethical Quandaries in Business Practices: Exploring Morality and Social Responsibility Roache, Darcia Ann Marie, 2024-08-29 In today's fast paced business environment organizations face increasingly complex ethical challenges From navigating cultural differences in global operations to balancing profit motives with social responsibility businesses must make moral decisions that impact their stakeholders and the broader society However many need more frameworks and insights to address these challenges effectively leading to ethical dilemmas that can harm their reputation and bottom line *Ethical Quandaries in Business Practices Exploring Morality and Social Responsibility* is a practical guide for organizations and individuals grappling with ethical decision making Delving into real world case studies and offering theoretical perspectives equips readers with the tools to analyze ethical challenges in various business contexts From understanding the ethical implications of marketing

strategies to promoting ethical leadership and corporate governance this book offers actionable insights to help businesses navigate complex ethical landscapes It also addresses the growing demand from consumers investors and regulators for enterprises to prioritize social responsibility providing strategies for integrating ethical practices into organizational culture

In Search of a Moral Foundation for Capitalism Douglas E. Stevens,2023-12-07 Stevens tells the untold story of the search for a moral foundation for capitalism through its leading characters His historical account reveals the rich moral critique provided by these characters and describes how that moral critique was lost through the influence of the Chicago School and its emphasis on self interest

Critical Theory Ethics for Business and Public Administration David M. Boje,2008-08-28 A volume in Ethics in Practice Series Editors Robert A Giacalone Temple University and Carole L Jurkiewicz Louisiana State University

The purpose of this book is to develop ethical traditions based on Kant Horkheimer and others to extend beyond the level of individual behavior to address the social system level in business and public administration It is not enough to try to be good or ethical as individuals when it is systemic processes which are fostering unethical behavior Horkheimer s books Eclipse of

Reason and Critique of Instrumental Reason and his early and now classic essay Materialism and Morality ask for a reformation of Kantian ethics The reform is sought because the categorical imperative within the context of an individualism capitalism serves to worsen the difference between business ethics and moral philosophy Therefore Horkheimer asks that the maxims that would be made universal would be done at the level of people organizing with others This is the level addressed in this volume as we seek to change the system that is producing and reproducing unethical behaviors
