on sex positions Then keep reading If you are asked to make a list of the things that lead to a great marriage what would be your response Many people would talk about commitment communication respect and many other factors Only a few people may include sex because people overlook the fact that sex creates an intimacy that helps to sustain other factors in the relationship In some religious doctrines couples are taught that sex is only necessary for procreation These kinds of couples would interpret sexual acts aside from the need for procreation as not too welcome because of their conservative beliefs Others do not properly discuss sex with their partners and things dwindle as a result of lack of intimacy Just because you've popped out one or two kids does not mean you should retire from the act of having sex because it is important Do you care to know why Sex in a successful relationship has to give both partners pleasure and they both should be able to express themselves When your relationship was in its early stages you probably thought that sex happened as a result of the romantic attraction you share Now that your relationship is aging and you are probably no longer having as much sex as you used to you may interpret it as a lack of attraction Don't wait until there's a spark between you and your partner Use sex to create the spark you want Sexual intercourse has a lot of positive physicals emotional social and intellectual benefits Think of anything you want to feel sex can help you feel it Sex helps you create intimacy in your relationship Partners who have great sex have a better confidence boost than others When your experience in bed is good you will develop a kind of high that makes you feel strong and confident in the other parts of your life When your sexual life is good your self esteem is good You begin to feel more attractive and desirable This feeling changes the way we see ourselves and do things Go on your street and tell a random person that they are beautiful Of course they'd smile but after the smile they'd walk away with a different gait and carriage than they possess before Feeling attractive makes us think about positive things This book covers the following topics Intimacy pre sex Sex positions Orgasm Sex position for pregnant women Sex positions for insecurity anxiety and premature ejaculation Fantasies fetishes Why there's need for sex and the use of different sex positions in a relationship Communication AND MORE When you increase the sex in your relationship you have a high level of intimacy When you kiss and touch each other you release oxytocin This gives you the urge to bond and an increased desire to cuddle and hold each other The more sex you have the more you'd always want to be close to your partner's body You will begin to think of your partner as a refuge from all external worries and this will go a long way in increasing the bond you share So do you want to learn more BUY NOW YOUR PAPERBACK BOOK

More Sexual Positions Outlet, Rh Value Publishing, 1989-08-19 *Classic and current sexual positions Spice up your relationship with favorite sexual positions in wild and erotic ways*, 2024-02-07 INTRODUCTION BEING EXCITED AND AROUSED FOR SEX is a wonderful feeling For the most part we could say this is half the battle a requirement even but unfortunately simply wanting sex is not always the be all and end all to having great sex Sometimes finding creative and fun ways to do it can be a challenge Sex like all things can become monotonous boring or lackluster if done often enough in the same way While not all people get tired of sex even when they do it a lot it can be nice to learn a new thing or two With time our bodies change and with experience so do our minds Expanding our sexual repertoire can teach us not only about our partners but also about ourselves A book on classic sex positions and their variations is not just for those seeking new variety adventure and possibilities This is also a great guide for beginners who don't know where to start and for those who are curious about learning about sex and their bodies But you don't have to be a beginner or seeking excitement There is something for everyone in these pages Some important things to keep in mind as you explore these varieties of sex positions Not every position is going to be great for everyone Although there is probably a little something for every sexual being within these pages it is important to remember that everybody is different Some poses are harder for certain body types Some poses will stimulate some and won't do anything for others If something doesn't seem like it is working for you don't sweat it Come back to it at a later time or move on Most sexual poses are easier if you feel comfortable in your environment and are relaxed It is a little known fact that when your muscles are relaxed your body is more open and flexible Feeling safe with your partner helps and of course so does being aroused And the two typically go hand in hand Communicate with your partner This may seem obvious but it's surprising how much we tend to hold back during sex Don't hesitate to get the conversation going around sex Be generous with your words Ask your partner how it feels and let him or her know what is working for you and what isn't Telling your partner ahead of time what you like dislike are willing to do and would like to

explore are great ways to break the ice around sex and start building a sexual repertoire together Communication can also be in the form of body language or moans and groans which nonverbally suggest that something feels good Be sure to pay attention to these Last but not least dirty talk is also a form of communication especially when used during sex and can take each variation to the next level Remember that sex is not only about penetration Learn to incorporate your hands fingers and mouth not just your genitals When we go into sex with just the genitals in mind we inevitably ignore other aspects of feeling and touch By making sex a full body experience we foster mind body connection The anus perineum testicles breasts and nipples for both men and women are all highly erogenous zones Don't ignore these areas Sex does not have to be goal oriented The positions in this book focus on man woman positions so each variation involves an aspect of intercourse This does not mean that intercourse must take place for the pose to be successful nor does it mean that orgasm is a requirement either Attempting the pose alone can provide a lot of fun and excitement Remember to enjoy the experience and not focus on the goal of orgasm Speaking of orgasm considering the fact that most of the poses include an element of penis vaginal penetration it is important to note that vaginal orgasms are not the norm for a majority of women While some women do experience the G spot orgasm this is not going to be true for every woman The G spot is located inside the vagina on the anterior wall More common is the clitoral orgasm The clitoris is found outside of the vagina near the front of her labia and above the urethra The vagina does have some sensitive spots such as the G spot however in terms of nerve endings relatively speaking the clitoris is much more sensitive Consider adding sex toys to your sexual repertoire Including toys allows us to think outside of the box and encourages a healthy sexuality that emphasizes growth and learning When we add toys we also remind ourselves that sex is about having fun and experimenting with what feels good I can't speak highly enough about lubrication Whether or not we are naturally lubricated is not necessarily an indication of whether or not we are emotionally aroused The two are not mutually exclusive If both partners agree this is something they want then lube is your best friend Having a few good types of lube on hand is a good idea Water based lubes are best if using condoms Organic lubes will have the least irritants Silicone based lubes will be the slickest but may not be great when used with silicone toys Avoid lubes with parabens and glycerin because they can cause irritation There are a lot of lubes out there so experiment to find what works for you and your partner Condoms are always a good idea unless you are in a long term monogamous relationship and or both parties are sharing sexually transmitted disease STD sexually transmitted infection STI results Another option for safe sex is mutual masturbation Whether you are touching yourself and or touching each other if no fluids are exchanged you are less likely to contract an STI or HIV Also mutual masturbation can be a highly erotic experience connecting two people in a very intimate way So definitely don't count this out Sex has endless possibilities when you open your mind and let your imagination run wild So get out there start exploring and start growing and learning Whether you are seeking daring adventures or just trying to learn something new remember to be safe and have fun
