My Of First Numbers:

I, Mathematician Peter Casazza, Steven G. Krantz, Randi D. Ruden, 2015-03-10 Mathematicians have pondered the psychology of the members of our tribe probably since mathematics was invented but for certain since Hadamard's *The Psychology of Invention in the Mathematical Field* The editors asked two dozen prominent mathematicians and one spouse thereof to ruminate on what makes us different The answers they got are thoughtful interesting and thought provoking Not all respondents addressed the question directly Michael Atiyah reflects on the tension between truth and beauty in mathematics T W K rner Alan Schoenfeld and Hyman Bass chose to write reflectively and thoughtfully about teaching and learning Others including Ian Stewart and Jane Hawkins write about the sociology of our community Many of the contributions range into philosophy of mathematics and the nature of our thought processes Any mathematician will find much of interest here

A Practical Introduction to Real-World Research Loreen Wolfer, 2021-01-15 This practical text combines social research methods with coverage of statistical analysis to help students develop the applied research skills needed for future careers in public and private organizations while also delivering a solid foundation for those going on to graduate school Throughout the book the author offers a real world example and then breaks it down into a decision tree which helps lead students to a possible statistical decision rather than starting with the statistic This text gives students a toolbox of the most common and in demand skills and demonstrates how those skills can be used to make the best research decisions The book takes students through the entire real world research process from the formation of a research topic to measurement and sampling to methods for gathering information and making sense of the data and finally presenting to a non academic audience in a way that gets the job done Resources for instructors and students are available on an accompanying website for the book
