My Parent's Keeper Eva Marian Brown,1989 Many adult children of mentally ill parents share similar problems f guilt over having left home poor self esteem lack of confidence and inability to express emotions This guide helps you to cope with guilt bolster self esteem and deepen intimacy

My Parents Keeper Eva Brown,1989-09-01 This is a comforting supportive guide to creating safety and confidence in one s adult life warmly and affirmingly written by a therapist who has devoted her life to helping others who had a childhood as chaotic as her own *Growing Up with a Schizophrenic Mother* Margaret J. Brown,Doris Parker Roberts,2000-08-15 An estimated two to three million people in the United States today were raised by a schizophrenic parent Brown and Roberts offer a unique book based on interviews with over forty adult children of mothers diagnosed as schizophrenic Such topics as the isolation their family felt their chaotic home environments their present relationships with their mothers and the lost potential of mother and child are covered Their stories are fascinating and provide important information to both the mental health community and the lay public The offspring have been described as having higher rates of increased aggressivity and sibling conflict but often their circumstances strengthened these children and contributed to artistic and creative talents resiliency and high achievements The authors provide an overview of schizophrenia behaviors of the affected parent and the marital relationship of the patient and her non schizophrenic spouse As adults the respondents now share their grievances about the psychological community what they needed and did not get Brown and Roberts then present suggestions for treatment of affected children aimed at psychiatrists psychologists social workers counselors and health care providers

Growing Up with a Crazy Italian Mother Tony Tripodi,2006-05 This book is about an immigrant woman and her youngest son Christina from Calabria Italy came to America in an arranged marriage experiencing the immigrant life in a strange land and coping with the shame and degradation of mental illness Through her strong will and determination she rose from the despair of poverty to become a woman who owned and rented many properties Christina s son Tony struggled to understand her inconsistent love and paranoid delusions Influenced by her strengths and weaknesses he developed from a frightened boy to a juvenile delinquent to a serious student and to a well known scholar in social work research Yet to this day he has yet to reach maturity in his interpersonal relationships

Stop Caretaking the Borderline or Narcissist Margalis Fjelstad,2013-02-07 People with Borderline or Narcissistic Personality Disorders have a serious mental illness that primarily affects their intimate personal and family relationships Often they appear to be normally functioning at work and in public interactions and Narcissists may even be highly effective in the short term in some work or social situations However in intimate relationships they can be emotional aggressive demeaning illogical paranoid accusing and controlling in the extreme Their ability to function normally or pleasantly can suddenly change in an instant like flipping a switch These negative behaviors don t happen once in a while they happen almost continuously in their intimate relationships and most often and especially with their Caretaker family member Here Margalis

Fjelstad describes how people get into a Caretaker role with a Borderline or Narcissist and how they can get out. Caretakers give up their sense of self to become who and what the Borderline or Narcissist needs them to be. This compromises the Caretaker's self-esteem, distorts their thinking processes and locks them into a Victim-Persecutor-Rescuer pattern with the Borderline or Narcissist. The book looks at the underlying rules and expectations in these relationships and shows Caretakers how to move themselves out of these rigid interactions and into a healthier, more productive and positive lifestyle with or without the Borderline/Narcissistic partner or family member. It describes how to get out of destructive interactions with the Borderline or Narcissist and how to take new, more effective actions to focus on personal wants, needs and life goals while allowing the Borderline or Narcissist to take care of themselves. It presents a realistic yet compassionate attitude toward the self-destructive nature of these relationships and gives real-life examples of how individuals have let go of their Caretaker behaviors with creative and effective solutions.

The Unavailable Father Sarah S. Rosenthal, 2010-04-06. Strategies for overcoming a damaged father-daughter relationship. Problems between fathers and daughters can damage a young girl's identity, convince her she's unlovable or without worth and send her into unhealthy adult relationships. This groundbreaking book includes in-depth stories and case histories of a broad spectrum of women over 25 who have recovered and flourished in their professional and personal lives despite the lack of a father's recognition and affection. While the legacy of pain that these fathers leave is deep, there is much that can be done to alleviate and even conquer it. Using these women's stories as well as her insights from her private practice, the author outlines basic strategies to overcome the void left by an abusive, absent, alcoholic, mentally ill, irresponsible, selfish or unloving father. Written by Sarah Simms Rosenthal, who has a thriving practice in New York City, it reveals how to understand the truth about your childhood. Includes strategies for discovering and analyzing past adult relationship mistakes, both personal and professional. Offers successful techniques for establishing new patterns of behavior. The women whose stories are told in *The Unavailable Father* have learned to recognize and change the patterns instigated by their dysfunctional fathers and have moved forward fulfilled.
