**The Purple Moon** Neelam Saxena Chandra, The Purple Moon is a collection of a hundred poems which emote the different sentiments and phases of love What really is love It is a feeling most difficult to define it is a sentiment to be felt smelled drunk and tasted for it is the most subtle emotion When one is in love for the first time many raw feelings enwrap him or her One may just be crazy have a simple desire to meet the sweetheart or may just feel something very divine On the other hand there are chances of one getting annoyed developing jealousy and hatred and may end up doing random acts However as love matures the feelings also mature and it is then that the lovers realize that love is something more than just these raw feelings Love brings out the deepest of emotions and is the purest of all feelings True love makes one fly giving the person in love a pair of wings making one expand one s horizons The Purple Moon is a treat to all those who have ever experienced love
