

# MAKING THE WORLD SAFE FOR TERRORISM

*By the end of December 2001, civilian casualties in Afghanistan far exceeded casualties in Manhattan on September 11 [BBC News, January 3, 2002]. While Osama bin Laden remained at large—as he still does, one can be sure that every relative, friend, and neighbor of the Afghan innocent dead is now more sympathetic to the terrorists, rather than less.*

You know where terrorists come from, don't you? They are the orphaned children who grow up where the last generation's bombs fell. Terrorism is the small-town startup company, war the multinational franchise that puts it out of business—but depends on others coming along to keep the market fresh and maintain the illusion of competition.

## **Making Of Terrorism:**

**The Making of Terrorism** Michel Wieviorka, 1993-12-15 In this innovative study Michel Wieviorka applies interventionist sociology to a comparative analysis of Italian Peruvian Basque and Middle Eastern terrorist groups Through staged confrontations between terrorists and their targets and extensive interviews with both parties he throws new light on the terrorists and their relationships both to the movements they represent and the social institutions they attempt to destroy Wieviorka demonstrates that the truly terrorist actor has become alienated both from the collective movement and society The actor turns to the blind violence when he finds himself cut off from the very ideology which legitimates his actions Pure terrorism Wieviorka concludes is more than simply a break between those who use it and those it targets it is also a relationship between the individual and the collective he represents which has been rendered unrealistic or artificial Thus terrorist violence should be understood not as the desperate act of a faltering movement but as a substitute for a movement which has fallen away from the ideology in which it was forged For the revelations it offers on the roots and motivations of terrorism for its innovative methods and for its useful comparative analysis of terrorist groups in recent history The Making of Terrorism will be an important resource across many disciplines for anyone interested in terrorism or political violence

**The Making of Terrorism in Pakistan** Eamon Murphy, 2012-12-12 This volume examines the social and political and economic factors that have contributed to the rise of terrorism in Pakistan employing an historical and critical terrorism studies perspective   **Terrorism and Counterterrorism** Carl Wellman, 2013-01-17 This book presents a definition of terrorism that is broad and descriptive and much needed to prevent misunderstanding The book identifies the features that make terrorism wrong including coerciveness the violation of rights and undermining of trust Next it evaluates reasons given for terrorism such as the protection of human rights and the liberation of oppressed groups as not normally justified Following this the book identifies and evaluates international responses to terrorism taking into account General Assembly and Security Council resolutions United Nations conventions and criminalization in international law It also looks at national responses which often take the shape of surveillance detention interrogation trials targeted killings intrusion and invasion Finally the book discusses how if at all the moral norms of personal morality apply to the actions of nation states   **Clinton, New Terrorism and the Origins of the War on Terror** Chin-Kuei Tsui, 2016-07-15 A frequent assumption of the American led war on terror and its accompanying discourse originated largely with the George W Bush Administration and that there was a counterterrorism policy revolution in the U S political arena Challenging these assumptions through a genealogical analysis of U S terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of U S counterterrorism policy from Ronald Reagan to Bill Clinton and through to George W Bush The book focuses on President Clinton s discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the Clinton Administration while simultaneously comparing it with President Reagan s and President George W Bush s

approaches to counterterrorism. It shows how the war on terror can be traced to earlier periods and that the so called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton. Prior to the 2001 terrorist attacks Clinton had expanded Reagan's first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats, home grown terrorism, WMD terrorism, cyberterrorism and rogue states. Clinton's new terrorism discourse provided a useful framework for George W Bush to discursively respond to the terrorist attacks on September 11th 2001. Aiming to uncover the myth of President George W Bush's foreign policy revolution and contribute to a deeper historical understanding of the US led war on terror, it will be of great use to postgraduates and scholars of US foreign policy, security studies and terrorism studies.

**Making Terrorism History** Gabrielle Rifkind, Scilla Elworthy, 2011-07-31. Ever since 9/11, it's been clear we need a new approach to terrorism. In this timely and important book, the authors show the root causes of terrorism, the links between trauma and fundamentalism, why people become suicide bombers, why peace processes collapse, whether non-violence is a useful response, what can be done. Clear, radical and extremely persuasive, **Making Terrorism History** shows why political violence is now such a major force in our world. At the same time, it gives a range of practical actions that can be taken to combat it, not only by our governments but also on the ground in Iraq, Israel and Palestine and more widely. In addition, there are many simple but effective steps that we too can take within our local communities to make peace, not war, on terror.

**Counterterrorism and Public Diplomacy** Emrah Aydemir, 2025-05-06. The book presents an innovative approach that goes beyond traditional chain models and measures to succeed in modern warfare and prevent recruitment by or involvement in terrorist organizations. By showing how to engage with vulnerable groups in counterterrorism and by analyzing the process between terrorist organizations and vulnerable groups to change the way target populations think and act, the book offers a new strategic and tactical perspective for state and non-state actors.

**Making America Safe for Democracy** Benjamin Vestal Hubbard, 1926. **The Making of a Terrorist: Recruitment** James J. F. Forest, 2006. Global terrorism has become a frightening reality. The situation calls for greater engagement with the public as the necessary eyes and ears of the global anti-terrorism coalition. However, to be effective, the public must be equipped with the knowledge of how, why, and where an individual becomes a terrorist. This is the primary goal of this set, which seeks to answer one central question: What do we currently know about the transformation through which an individual becomes a terrorist?

**The Making of America** Robert D. Johnston, 2002. The History of the United States from 1492 to the Present, 2002. **Making Policy** Paul W. Cooke, 2003. **Teaching Politics and International Relations** Cathy Gormley-Heenan, Simon Lightfoot, 2012-03-12. A state-of-the-discipline approach to teaching and learning in Politics and IR, including contributions which discuss the most cutting edge approaches, techniques and methodologies for tutors. This book discusses the themes and challenges in teaching and learning whilst also exploring these in the specific context of political science and IR.
