grasped some of these concepts before but having them structured and in writing makes all the difference I will surely recommend it to friends and co workers Alberto Pisanello A very thoughtful piece of writing deep and wiring David Krejca Luca Dellanna s new book 100 Truths is super tight Practical directional advice Hari Meyyappan 100 Truths has been a game changer Adam English A thoughtfully written book in very straightforward language A L Peevey Excellent book with formulas to increase the chances of achieving what we want to be in life Luca writes directly and leads the reader into Action Edgar 100 MENTAL MODELS TO EASE YOUR WAY THROUGH LIFE I wasted years of my life because I did not know its rules I did not know the rules of relationships careers health or happiness Then through hard work talking with mentors and trial error I uncovered some of them Now I lay these rules out for you In this book you will find 100 of the lessons I learned It will still require some work from your side to internalize them and put them into practice but at least it will make the process easier for you by letting you avoid committing the same mistakes as I did THE TITLES OF SOME OF THE CHAPTERS INSIDE INCLUDE Problems grow the size needed for you to acknowledge them Taking a course of Action makes it easier to take it again for better or for worse Other people s expectations aren t your problem Hating those who despise what you want will prevent you from obtaining it Discipline is freedom Extraordinary people are extraordinarily selective Successful people at some point in their life committed to the hard choice Self respect is the compass for change that matters The standards you have today determine the life you will have in a few years People are extremely good at succeeding at their priorities and extremely dishonest about them Your problems aren t different Listening is about not projecting your own worldviews
