Oracle Night:

Oracle Night Paul Auster,2003-12-02 Recovering from a near fatal illness Sidney Orr a thirty four year old novelist purchases a mysterious blue notebook from a Brooklyn stationery shop and is drawn into a bizarre world of eerie premonitions and baffling events **Futurity** Amir Eshel,2013-01-14 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century s catastrophes at the expense of literature s prospective vision Considering several key literary works Eshel argues in *Futurity* that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany s public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel s political birth he shows how these stories inspired a powerful reconsideration of Israel s identity Eshel then discusses post 1989 literature from Ian McEwan s *Black Dogs* to J M Coetzee s *Diary of a Bad Year* revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future *Futurity* reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow

From Oracle Night Michael Brownstein,1978 *A Life in Words* Paul Auster,I. B. Siegumfeldt,2017-10-03 An inside look into Paul Auster s art and craft the inspirations and obsessions mesmerizing and dramatic in turn A remarkably candid and often surprisingly dramatic investigation into one writer s art craft and life *A Life in Words* is rooted in three years of dialogue between Auster and Professor I B Siegumfeldt starting in 2011 while Siegumfeldt was in the process of launching the Center for Paul Auster Studies at the University of Copenhagen It includes a number of surprising disclosures both concerning Auster s work and about the art of writing generally It is a book that s full of surprises unscripted yet amounting to a sharply focused portrait of the inner workings of one of America s most productive and successful writers through all twenty one of Auster s narrative works and the themes and obsessions that drive them

Melancholy and the Archive Jonathan Boulter,2011-05-19 *Melancholy and the Archive* examines how trauma history and memory are represented in key works of major contemporary writers such as David Mitchell Paul Auster Haruki Murakami and Jose Saramago The book explores how these authors construct crucial relationships between sites of memory the archive becomes a central trope here and the self that has been subjected to various traumas various losses The archive be it a bureaucratic office Saramago an underground bunker Auster a geographical space or landscape Mitchell or even a hole Murakami becomes the means by which the self attempts to preserve and conserve his or her sense of history even as

the economy of trauma threatens to erase the grounds of such preservation as the subject or self is threatened so the archive becomes a festishized site wherein history is housed accommodated created even fabricated The archive in Freudian terms becomes a space of melancholy precisely as the subject preserves not only a personal history or a culture's history but also the history of the traumas that necessitates the creation of the archive as such

Human Law and Computer Law: Comparative Perspectives

Mireille Hildebrandt, Jeanne Gaakeer, 2013-05-23 The focus of this book is on the epistemological and hermeneutic implications of data science and artificial intelligence for democracy and the Rule of Law How do the normative effects of automated decision systems or the interventions of robotic fellow beings compare to the legal effect of written and unwritten law To investigate these questions the book brings together two disciplinary perspectives rarely combined within the framework of one volume One starts from the perspective of code and law and the other develops from the domain of law and literature Integrating original analyses of relevant novels or films the authors discuss how computational technologies challenge traditional forms of legal thought and affect the regulation of human behavior Thus pertinent questions are raised about the theoretical assumptions underlying both scientific and legal practice

Paul Auster's Writing Machine

Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature Known primarily as a novelist Auster's films and various collaborations are now gaining more recognition Evija Trofimova offers a radically different approach to the author's wider body of work unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic facto fictional network produced by a set of writing tools Exploring Auster's literal and figurative use of these tools the typewriter the cigarette the doppelganger figure the city Evija Trofimova discovers Auster's writing machine a device that works both as a means to write and as a construct that manifests the emblematic writer figure This is a book about assembling texts and textual networks the writing machines that produce them and the ways such machines invest them with meaning Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself Paul Auster's Writing Machine becomes not just a critical investigation but a critical collaboration raising important questions about the ultimate meaning of Auster's work and about the relationship between texts their authors their readers and their critics
