Alberta Learning,2004-01-01 *Essential Competencies for English-medium University Teaching* Ruth Breeze,Carmen Sancho Guinda,2016-10-06 As English gains prominence as the language of higher education across the world many institutions and lecturers are becoming increasingly concerned with the implications of this trend for the quality of university teaching and learning With an innovative approach in both theme and scope this book addresses four major competencies that are essential to ensure the effectiveness of English medium higher education creativity critical thinking autonomy and motivation It offers an integrated perspective

both theoretical and practical which defines these competences from different angles within ELT and Applied Linguistics while also exploring their points of contact and applications to classroom routines This approach is intended to provide practical guidance and inspiration in the form of pedagogical proposals examples of teaching practice and cutting edge research by scholars and university teachers from all over the world To that end a leading specialist in the field introduces each of the four competencies explaining concepts accessibly and synthetically exposing false myths presenting an updated state of the art and opening windows for future studies These introductions are followed by practitioner chapters written by teachers and scholars from different cultures and university contexts who reflect on their experience and or research and share effective procedures and suggestions for the university class with English as a vehicle for instruction **Educational Review** Nicholas Murray Butler, Frank Pierrepont Graves, 1922 Vols 19 34 include Bibliography of education for 1899 1906 compiled by James I Wyer and others *The ERIC Review* , 1998 Provides information on programs research publications and services of ERIC as well as critical and current education information **The Saturday Review of Politics, Literature, Science, Art, and Finance** , 1926
