The Government Analytics Handbook Daniel Rogger, Christian Schuster, 2023-10-27 The Government Analytics Handbook presents frontier evidence and practitioner insights on how to leverage data to strengthen public administration Covering a range of microdata sources such as administrative data and public servant surveys as well as tools and resources for undertaking the analytics it transforms the ability of governments to take a data informed approach to diagnose and improve how public organizations work Readers can order the book as a single volume in print or digital formats or visit worldbank.org/governmentanalytics for modular access and additional hands on tools The Handbook is a must have for practitioners policy makers academics and government agencies Governments have long been assessed using aggregate governance indicators giving us little insight into their diversity and how they can practically be improved This pioneering handbook shows how microdata can be used to give scholars and practitioners granular and real insights into how states work and practical guidance on the process of state building Francis Fukuyama Stanford University author of *State Building Governance and World Order in the 21st Century* The Government Analytics Handbook is the most comprehensive work on practically building government administration I have ever seen helping practitioners to change public administration for the better Francisco Gaetani Special Secretary for State Transformation Government of Brazil The machinery of the state is central to a country's prosperity This handbook provides insights and methodological tools for creating a better shared understanding of the realities of a state to support the redesign of institutions and improve the quality of public administration James Robinson University of Chicago coauthor of *Why Nations Fail* *A Guide for Leaders in Higher Education* Brent D. Ruben, Richard De Lisi, Ralph A. Gigliotti, 2023-07-03 FIRST EDITION SPECIAL RECOGNITION Winner of the 2018 Sue DeWine Distinguished Scholarly Book Award National Communication Association Applied Communication Division REVIEWS OF THE FIRST EDITION The book provides frameworks and resources that would be highly relevant for new and aspiring department chairs In fact this text is ideally designed to serve as a selection for a book discussion group The Department Chair Succeeds in providing accessible and useful resources to individuals across different leadership roles As a midpoint between textbook and reference work it is successful at both and provides a clear and unbiased background to issues facing current leaders Reflective Teaching During a time of unprecedented challenges facing higher education the need for effective leadership for informal and formal leaders across the organization has never been more imperative Since publication of the first edition the environment for higher education has become more critical and complex Whether facing falling enrollments questions of economic sustainability the changing composition of the faculty and student bodies differential retention and graduation rates declining public confidence in the enterprise or the rise in the use of virtual technologies not to mention how COVID 19 and an intensified focus on long standing issues of racial and gender representation and equity have impacted institutions and challenged many long standing assumptions it is clear that learning

on the job no longer suffices Leadership development in higher education has become essential for advancing institutional effectiveness which is the focus of this book Taking into account the imperative issues of diversity inclusion and belonging and the context of institutional mission and culture this book centers on developing capacities for designing and implementing plans strategies and structures connecting and engaging with colleagues and students and communicating and collaborating with external constituencies in order to shape decisions and policies It highlights the need to think broadly about the purposes of higher education and the dynamics of organizational excellence and to apply these insights effectively in goal setting planning and change leadership outcomes assessment addressing crises and continuous improvement at both the level of the individual and organization The concepts and tools in this book are equally valuable for faculty and staff leaders whether in formal leadership roles such as deans chairs or directors of institutes committees or task forces or those who perform informal leadership functions within their departments disciplines or institutions It can be used as a professional guide a textbook in graduate courses or as a resource in leadership training and development programs Each chapter concludes with a series of case studies and guiding questions
