Architecture in Mexico City Kathryn E. O'Rourke, 2017-02-10 Mexico City became one of the centers of architectural modernism in the Americas in the first half of the twentieth century Invigorated by insights drawn from the first published histories of Mexican colonial architecture which suggested that Mexico possessed a distinctive architecture and culture beginning in the 1920s a new generation of architects created profoundly visual modern buildings intended to convey Mexico's unique cultural character By midcentury these architects and their students had rewritten the country's architectural history and transformed the capital into a metropolis where new buildings that evoked pre conquest colonial and International Style architecture coexisted Through an exploration of schools a university campus a government ministry a workers park and houses for Diego Rivera and Luis Barragan Kathryn O'Rourke offers a new interpretation of modern architecture in the Mexican capital showing close links between design evolving understandings of national architectural history folk art and social reform This book demonstrates why creating a distinctively Mexican architecture captivated architects whose work was formally dissimilar and how that concern became central to the profession

Cosmopolitanism in Mexican Visual Culture María Fernández, 2014-01-06 Since the colonial era Mexican art has emerged from an ongoing process of negotiation between the local and the global which frequently involves invention synthesis and transformation of diverse discursive and artistic traditions In this pathfinding book María Fernández uses the concept of cosmopolitanism to explore this important aspect of Mexican art in which visual culture and power relations unite the local and the global the national and the international the universal and the particular She argues that in Mexico as in other colonized regions colonization constructed power dynamics and forms of violence that persisted in the independent nation state Accordingly Fernández presents not only the visual qualities of objects but also the discourses ideas desires and practices that are fundamental to the very existence of visual objects Fernández organizes episodes in the history of Mexican art and architecture ranging from the seventeenth century to the end of the twentieth century around the consistent but

unacknowledged historical theme of cosmopolitanism allowing readers to discern relationships among various historical periods and works that are new and yet simultaneously dependent on their predecessors She uses case studies of art and architecture produced in response to government commissions to demonstrate that established visual forms and meanings in Mexican art reflect and inform desires expectations memories and ways of being in the world in short that visual culture and cosmopolitanism are fundamental to processes of subjectification and identity National Homage, José María Velasco (1840-1912) : Museo Nacional de Arte, July-October, 1993 María Elena Altamirano Piolle,1993 **Historical Abstracts**

,1997 **Visual Voyages** Daniela Bleichmar,2017-01-01 An unprecedeted visual exploration of the intertwined histories of art and science of the old world and the new From the voyages of Christopher Columbus to those of Alexander von Humboldt and Charles Darwin the depiction of the natural world played a central role in shaping how people on both sides of the Atlantic understood and imaged the region we now know as Latin America Nature provided incentives for exploration commodities for trade specimens for scientific investigation and manifestations of divine forces It also yielded a rich trove of representations created both by natives to the region and visitors which are the subject of this lushly illustrated book Author Daniela Bleichmar shows that these images were not only works of art but also instruments for the production of knowledge with scientific social and political repercussions Early depictions of Latin American nature introduced European audiences to native medicines and religious practices By the 17th century revelatory accounts of tobacco chocolate and cochineal reshaped science trade and empire around the globe In the 18th and 19th centuries collections and scientific expeditions produced both patriotic and imperial visions of Latin America Through an interdisciplinary examination of more than 150 maps illustrated manuscripts still lifes and landscape paintings spanning four hundred years Visual Voyages establishes Latin America as a critical site for scientific and artistic exploration affirming that region s transformation and the transformation of Europe as vitally connected histories **Mexico at the World's Fairs** Mauricio Tenorio-Trillo,2018-06-01 This intriguing study of Mexico s participation in world s fairs from 1889 to 1929 explores Mexico s self presentation at these fairs as a reflection of the country s drive toward nationalization and a modernized image Mauricio Tenorio Trillo contrasts Mexico s presence at the 1889 Paris fair where its display was the largest and most expensive Mexico has ever mounted with Mexico s presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929 Rather than seeing the revolution as a sharp break Tenorio Trillo points to important continuities between the pre and post revolution periods He also discusses how internationally the character of world s fairs was radically transformed during this time from the Eiffel Tower prototype encapsulating a wondrous symbolic universe to the Disneyland model of commodified entertainment

Drawing on cultural intellectual urban literary social and art histories Tenorio Trillo s thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930 set within the context of the origins of Western nationalism cosmopolitanism and modernism This title is part of UC Press s Voices Revived program which commemorates University of

California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997
