## **National Parks And Protected Areas keystones To Conservation And Sustainable Development:**

*National Parks and Protected Areas* James Gordon Nelson, Rafal Serafin, 2013-06-29 National parks and protected areas offer a wealth of ecological and social contributions or services to humans and life on earth This book describes the strengths of national parks and protected areas in different parts of Europe and North America and the challenges to the full realization of their goals It shows that they are useful not only in conserving rare species and biodiversity but also in protecting water supply and other resources necessary to tourism and to economic and social development generally Ideas and information on useful planning management and decision making arrangements are presented and research needs are identified

*The Role of Biodiversity Conservation in the Transition to Rural Sustainability* Stephen S. Light, 2004 This book presents interdisciplinary advances in theory and practice pertaining to rural sustainability and sets forth an action research agenda and policy prescriptions to support rural sustainability with special emphasis on the Accession Countries to the EU

The book will address four themes

**Serengeti IV** Anthony R. E. Sinclair, Kristine L. Metzger, Simon A. R. Mduma, John M. Fryxell, 2015-05-11 The vast savannas and great migrations of the Serengeti conjure impressions of a harmonious and balanced ecosystem But in reality the history of the Serengeti is rife with battles between human and non human nature In the 1890s and several times since the cattle virus rinderpest at last vanquished in 2008 devastated both domesticated and wild ungulate populations as well as the lives of humans and other animals who depended on them In the 1920s tourists armed with the world s most expensive hunting gear filled the grasslands And in recent years violence in Tanzania has threatened one of the most successful long term ecological research centers in history Serengeti IV the latest installment in a long standing series on the region s ecology and biodiversity explores the role of our species as a source of both discord and balance in Serengeti ecosystem dynamics Through chapters charting the complexities of infectious disease transmission across populations agricultural expansion and the many challenges of managing this ecosystem today this book shows how the people and landscapes surrounding crucial protected areas like Serengeti National Park can and must contribute to Serengeti conservation In order to succeed conservation efforts must also focus on the welfare of indigenous peoples allowing them both to sustain their agricultural practices and to benefit from the natural resources provided by protected areas an undertaking that will require the strengthening of government and education systems and as such will present one of the greatest conservation challenges of the next century

**Europe** Kevin Hillstrom, Laurie Collier Hillstrom, 2003-08-13 A concise yet thorough overview of the environmental issues problems and controversies facing the world s most densely populated continent Europe Europe one of six titles in The World s Environments series tackles the tough issues the complex problems and the political controversies surrounding the continent s environmental past its complicated present and its uncertain future Europe looks at the catastrophes in January 2000 a massive spill of cyanide and heavy metals from a gold mining operation in Romania destroyed all biological life in the Tisza Hungary s second biggest river The poisons traveled 1

000 kilometers through Hungary and Yugoslavia where they wreaked havoc on the Danube It also examines the progress European society has shown a greater interest in renewable energy technologies than most other industrialized regions in the last 30 years Serving as both a blueprint for the future as well as a roadmap of the past this book offers a gripping look at Europe s ecological history

**Protected Areas and the Regional Planning Imperative in North America** John Chadwick Day,James Gordon Nelson,Lucy M. Sportza,2003 Regional planning is imperative if North America has any hope of retaining continental biodiversity This timely collection of essays that presents new protected area theory method and practice reinforces this theme of regional planning With a North American focus these essays consider the history ecology policy and planning of protected areas while raising awareness of their contribution to society Contemporary understanding of protected areas are challenged as the book forces readers to move from a mentality of the past that saw protected areas as fortresses to a wider understanding of where protected areas are seen as interdependent with other landscapes in the matters of biodiversity ecological integrity and environmental health Public officials in resources and environmental management NGOs concerned with parks and protected areas and students of tourism environment and planning and education will find current ideology and application in this collection of essays by scholars from Canada the United States and Mexico

Tourism Collaboration and Partnerships Bill Bramwell,Bernard Lane,2000-05-02 The central importance of involving diverse stakeholders in effective sustainable tourism planning and management is increasingly recognised Collaboration and partnerships are valuable ways of achieving this Leading researchers and practitioners examine the processes issues and politics involved in this new and fast growing field Case studies are taken from Europe the Americas Australia and the Arctic

**Maritime Clusters and the Ocean Economy** Peter B. Myles,2017-09-07 Over the last decade the concept of clustering has become a central idea for analyzing the competitiveness of nations industries and firms This book shows how the cluster concept can be usefully applied to the study of maritime activities Such activities including shipping shipbuilding and port and maritime services are clearly geographically concentrated in a number of maritime clusters However as the author shows these are having to compete with other uses of the coasts and oceans including capture fisheries marine aquaculture offshore energy and tourism Sound governance and planning is therefore required to manage the competing claims for ocean space The book shows how competing industries and other stakeholders can cooperate and benefit from an integrated approach to the development of maritime clusters The contribution of approaches such as integrated coastal zone management and innovations such as ocean business councils as well as

coordinated networks of maritime clusters are reviewed Case studies are included from around the world including detailed examples of the development of the Nelson Mandela Bay Maritime Cluster in South Africa and from Poland in the Baltic Sea
