NATIONALISM, RELIGIOUS VIOLENCE, AND HATE SPEECH IN NINETEENTH-CENTURY WESTERN EUROPE

MEMORIES OF INTOLERANCE

Edited by
Francisco Javier Ramón Solans

Nationalism And Violence

Mark Hewitson

Nationalism And Violence:

Nationalism and Violence Christopher Dandeker, With contributions from leading scholars from the humanities and social sciences this book provides an interdisciplinary analysis of the roots of violent national conflicts within and between states It considers some of the key mechanisms of conflict resolution including economic interdependence and revised notions of sovereignty and the nation state

Nations, States, and Violence David D. Laitin, 2007-07-26 Nations States and Violence presents a revisionist view of the sources of nationalism the relationship of the nation to culture and the implications of nationalism and cultural heterogeneity for the future of the nation state It accepts the now standard view that national identities are not inherited traits but constructed communities in order to serve political ends But the resulting national identities do not emerge from some metaphorical plebiscite as had been suggested by some rather they result from efforts by people to coordinate their identities with people who share at least some cultural traits with them Coordination leads to powerful social and cultural ties that are hard to unravel and this explains the persistence of national identities Understood as the result of coordination dynamics the implications of national homogeneity and heterogeneity are explored The book shows that national heterogeneity is not as it is sometimes accused of being a source of hatred and silence Nonetheless there are advantages to homogeneity for the production of public goods and economic growth Whatever the positive implications of homogeneity the book shows that in the current world classic nation states are defunct Heterogeneity is proliferating not only due to migration but also because small groups in many states once thought to be homogeneous are coordinating to demand national recognition With the prohibitive costs of eliminating cultural heterogeneity citizens and leaders need to learn how best to manage or even take advantage of national diversity within their countries Management of diversity demands that we understand the coordination aspects of national heterogeneity a perspective that this book provides In addition to providing a powerful theory of coordination and cultural diversity the book provides a host of engaging vignettes of Somalia Spain Estonia and Nigeria where the author has conducted original field research The result is a book where theory is combined with interpretations of current issues on nationalism economic growth and ethnic violence

Ethnicity, Nationalism and Violence Christian P. Scherrer, 2017-11-22 This title was first published in 2003 Meticulously documenting Intra state violence and the responses to it from a global perspective this volume deals with a core element of future global governance within its historical and sociological context It provides a striking analysis of the prevention of violence and resolving conflict elaborating on the role that key regional and international organizations e g UN OSCE COE OAU AU and OSA have or should have in the prevention of violence and terrorism as well as in the protection of human and minority rights The work is an invaluable addition to the collections of scholars and students in the fields of peace and conflict research international relations sociology ethnic studies international law and development research

Extreme Politics Charles King, 2010-01-14 In this wide ranging set of essays Charles King examines the conceptual intersection of

nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades Extreme Politics charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of Russia the Balkans and the wider postcommunist world *Russian Nationalism and Ethnic Violence* Richard Arnold, 2016-06-10

Nationalism is now the dominant narrative in Russian politics and one with genuine popularity in society *Russian Nationalism and Ethnic Violence* is a theoretical and empirical study which seeks to break the concept of ethnic violence into distinguishable types examining the key question of why violence within the same conflict takes different forms at certain times and providing empirical insight into the politics of one of the most important countries in the world today Theoretically the work promises to bring the content of ethnic identity back into explanations of ethnic violence with concepts from social theory and empirical and qualitative analysis of databases newspaper reports human rights reports social media and ethnographic interviews It sets out a new typology of ethnic violence studied against examples of neo Nazi attacks Cossack violence against Meskhetian Turks and Russian race riots *Russian Nationalism and Ethnic Violence* brings hate crimes in Russia into the study of ethnic violence and examines the social undercurrents that have led to Putin's embrace of nationalism It adds to the growing body of English language scholarship on Russia's nationalist turn in the post Cold War era and will be essential reading for anyone seeking to understand not only why different forms of ethnic violence occur but also the potential trajectory of Russian politics in the next 20 years *Religious Violence, Political Ends* Marco

Demichelis, 2018-11-01 Politisch begründete religiöse Gewalt war und ist seit der Antike eine gängige Praxis Die Gräueltaten des Römischen Reiches gegen die frühchristlichen Gemeinschaften wurden schnell durch nicht minder aggressive Handlungen gegen die nicht christlichen Gläubigen ersetzt denen abscheuliche und polytheistische Praktiken vorgeworfen wurden Mit dem Aufkommen der Moderne hat die Homogenisierung der religiösen Sphäre für politisch ökonomische Zwecke die Vernichtung jeder Form von Heterogenität und die Ausbreitung des Protestantismus des Calvinismus und des Anglikanismus eine Umstrukturierung und Konzeptualisierung der westeuropäischen Staaten bewirkt ganz nach der Devise ein Königreich mit einer Religion und einer Nation Das Ende der Religionskriege 1648 die Westfälische Souveränität und der cuius regio eius religio hatten Einfluss auf die Bildung des modernen Europa und anderer Regionen der französisch britische Kolonialismus zwang dabei dem gesamten Nahen Osten und der islamischen Welt das gleiche System auf Der vorliegende Band widmet sich der Untersuchung von interreligiöser Gewalt religiösem Sektierertum und Islamophobie auf theoretischer Basis verbunden mit dem Kampf der Kulturen und dem religiösen Nationalismus als Ausdruck politischer Ziele mit denen die Erhaltung der Fragmentierung und der kriegesischen Auseinandersetzungen im Osten sowie das Schüren von Ängsten und Vorurteilen im Westen verfolgt werden Religious violence due to political reasons has been a common practice since ancient times The massacres of early Christian communities carried out by the Roman Empire were rapidly replaced by equally harsh measures against non Christian believers being accused of abominable and polytheistic practises The advent of the modern

age the homogenization of the religious sphere for political economic ends the annihilation of any kind of heresy and the emergence of Protestantism Calvinism and Anglicanism restructured the conceptualization of the Western European States emphasizing the adage one kingdom with one religion and one nation The end of the religious wars 1648 the Westphalian sovereignty and the cuius regio eius religio had an impact on the formation of Europe and other regions the Franco British colonialism imposed the same system on the entire Middle Eastern and Islamic World This volume thoroughly examines the usage of inter religious violence religious sectarianism and Islamophobia on a theoretical basis linked with Clashes of Civilizations and Religious Nationalism and describes them as manifestations of precise political ends aiming to preserve fragmentation and warlike states in the East as well as fear and prejudices in the West

Does Terrorism Work? Richard English, 2019-02-21 Terrorism is one of the most significant security threats that we face in the twenty first century Not surprisingly there is now a plethora of books on the subject offering definitions of what terrorism is and proffering advice on what causes it and how states should react to it But one of the most important questions about terrorism has until now been left remarkably under scrutinized does it work Richard English now brings thirty years of professional expertise studying terrorism to the task of answering this complex and controversial question Focussing principally on four of the most significant terrorist organizations of the last fifty years al Qaida the Provisional IRA Hamas and ETA and using a wealth of interview material with former terrorists as well as those involved in counter terrorism he argues that we need a far more honest understanding of the degree to which terrorism actually works as well as a more nuanced insight into the precise ways in which it does so Only then can we begin to grapple more effectively with what has become one of the most challenging and eye catching issues of our time

Extreme Politics Charles King, 2009 European Integration Since the 1920s Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a

type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union *Palgrave Advances in Peacebuilding* O. Richmond,2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor The related statebuilding praxis has generally been unable to respond to its critics What is at stake is a recognition of peacebuilding s everyday political social economic and cultural dynamics This indicates the emergence of a post liberal form of peace Colors of the Robe Ananda Abeysekara,2002 Poised to spark debate among scholars of religious studies and other disciplines Colors of the Robe sheds new light on the Sri Lankan Buddhist universe of ethics and politics and more important suggests innovative directions for the global study of religion identity culture politics and violence In a volume that surpasses other studies in tracking identifying and locating Sri Lankan Buddhism in its sectarian ethnic cultural social and political constructions Ananda Abeysekara lays down a challenge to postcolonial and postmodern theory He argues that although criticisms have undermined the orientalist constructions of culture they cannot help us understand let alone theorize the emergence of contemporary authoritative discourses that define distinctions involving religion and violence identity and difference Supplanting that aim Abeysekara illuminates the shifting configurations that characterize the relations connected with postcolonial religious identity and culture BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Rethinking Violence** Erica Chenoweth,Adria Lawrence,2010 An original argument about the causes and consequences of political violence and the range of strategies employed The Aftermath of Non-co-operation Manabendra Nath Roy,1926 *Modern Greek Studies Yearbook* ,2004

Nationalism, Religious Violence, and Hate Speech in Nineteenth-Century Western Europe Francisco Javier Ramón Solans,2024-04-01 Nationalism Religious Violence and Hate Speech in Nineteenth Century Western Europe critically analyses the role played by different memories of past religious violence in public debates in nineteenth century Europe Looking back European societies often did not seek to overcome their differences and create a framework of peaceful coexistence among various religions and denominations but rather more frequently to fuel intra and inter religious hatred Moreover various violent pasts were mobilised to define what and who was intolerant in order to mark the other as intolerant and therefore incompatible with societal values To examine conflicting memories of violence and hatred this book focuses on commemorations statues publications and public polemics surrounding past religious violence Three elements serve as a framework to explain the conflictive nature of these memories of intolerance the age of commemorations the culture wars

and the second confessional age The authors explore cases in France Germany Italy Spain Switzerland the United Kingdom and the Low Countries covering Catholicism Protestantism Anglicanism Islam and Judaism The book focuses on iconic victims such as Giordano Bruno and Michael Servetus collective massacres and discourses surrounding religious hatred in events such as the Crusades The cases of religious violence remembered in the nineteenth century span the Middle Ages and the intense period of religious violence known as the confessional age This book will appeal to students and scholars of politics religious tolerance and freedom hate speech nationalism religious history and European history After Independence Lowell Barrington,2006-03-31 What happens to nationalism after independence is achieved **Analysis of Current Events** ,2000 Routine Violence Gyanendra Pandey,2006 This book investigates the ideological and political conditions that allow and sanction the undisguised political violence of our times It is concerned with the regnant demands of nationalism and of history writing and the unity and uniformity upon which these insist *The Saturday Review of Politics, Literature, Science and Art* ,1913 **Transition** ,1963

Unveiling the Magic of Words: A Report on "**Nationalism And Violence**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring.
