Native Americans The Indigenous People O:

An Indigenous Peoples' History of the United States Roxanne Dunbar-Ortiz, 2014-09-16 New York Times Bestseller Now part of the HBO docuseries Exterminate All the Brutes written and directed by Raoul Peck Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States there are more than five hundred federally recognized Indigenous nations comprising nearly three million people descendants of the fifteen million Native people who once inhabited this land The centuries long genocidal program of the US settler colonial regimen has largely been omitted from history Now for the first time acclaimed historian and activist Roxanne Dunbar Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans for centuries actively resisted expansion of the US empire With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe An Indigenous Peoples History of the United States is an essential resource providing historical threads that are crucial for understanding the present In An Indigenous Peoples History of the United States Dunbar Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants displacing or eliminating them And as Dunbar Ortiz reveals this policy was praised in popular culture through writers like James Fenimore Cooper and Walt Whitman and in the highest offices of government and the military Shockingly as the genocidal policy reached its zenith under President Andrew Jackson its ruthlessness was best articulated by US Army general Thomas S Jesup who in 1836 wrote of the Seminoles The country can be rid of them only by exterminating them Spanning more than four hundred years this classic bottom up peoples history radically reframes US history and explodes the silences that have haunted our national narrative An Indigenous Peoples History of the United States is a 2015 PEN Oakland Josephine Miles Award for Excellence in Literature *Native American and Indigenous Peoples' World of Work* Dianna L. History Until surprisingly recently most history books noted that America was discovered in 1492 by Christopher Columbus The truth was that by the time that Columbus arrived in America people had been living there for more than 12 000 years During this time the indigenous people of North America lived without contact with other continents Different groups developed separate and distinct ways of life cultures and societies but all shared one common characteristic they relied on the land to provide them with food and they developed a series of religions that while separate shared a respect for nature and imbued many animals and natural features with spiritual characteristics These beliefs combined with the fact that most of these societies were relatively primitive compared to those emerging in other parts of the world meant that the Native Americans were able to live in harmony with the natural world These people had sophisticated and complex belief systems but they built no cities no wheeled vehicles and developed nothing beyond the most basic written language Although many millions of people lived in North America their impact on the landscape and the natural systems was minimal Then abruptly white settlers arrived bringing with them new technologies and weapons new religions and an indifference towards nature They also brought with them diseases to which the Native Americans had never before been exposed Within two hundred years the Native American population dwindled to a fraction of what it had been the survivors were herded onto reservations on which they could not follow their traditional ways of life and where they were denied the most basic human rights Inside
