[Living and Dying in the USA](#) Richard G. Rogers, Robert A. Hummer, Charles B. Nam, 1999-10-06 The simplicity of using one data set in addressing the relationship of single variables to mortality distinguishes Living and Dying in the USA from other recent investigations of mortality The authors use the recently released National Health Interview Survey and the National Death Index to make a definitive statement about demographics and mortality By surveying demographic and sociocultural characteristics associated with mortality socioeconomic effects health-related conditions and health status they reveal connections among several factors related to mortality chances Easily understood and cited their study emphasizes the statistical methods underlying their revelations and invites readers to duplicate their results Comprehensive coverage of US adult mortality differentials Based on a new and innovative data set Includes factors rarely examined in related mortality research Not only documents mortality

differentials but explores explanations for them Extensive list of references associated with each chapter Consistent straightforward methodology used throughout aids readers in both understanding the content and in comparing results from chapter to chapter     *Discovering Successful Pathways in Children's Development* Thomas S. Weisner, 2005-02-15  
Discovering Successful Pathways in Children's Development provides a new perspective on the study of childhood and family life Successful development is enhanced when communities provide meaningful life pathways that children can seek out and engage Successful pathways include both a culturally valued direction for development and competence in skills that matter for a child's subsequent success as a person as well as a student parent worker or citizen To understand successful pathways requires a mix of qualitative quantitative and ethnographic methods the state of the art for research practice among developmentalists educators and policymakers alike This volume includes new studies of minority and immigrant families school achievement culture race and gender poverty identity and experiments and interventions meant to improve family and child contexts Discovering Successful Pathways in Children's Development will be of enormous value to everyone interested in the issues of human development education and social welfare and among professionals charged with the task of improving the lives of children in our communities     **Migration, Health and Survival** Frank Trovato, 2017-11-24
