## **Nato Strategy And Nuclear Escalation:**

NATO Strategy and Nuclear Escalation Stephen J. Cimbala,1989 In this analysis of key doctrines plans and policies at the centre of the controversy about Western deterrence and defence the author points to doctrinal deficiencies and examines NATO ideas on escalation and policy in terms of both logical consistency and implication for strategy

### **Theater Nuclear**

**Weapons and the NATO Strategy of Flexible Response** J. Michael Legge,1983 After more than a decade of comparatively little public interest in matters of nuclear strategy the last few years have seen a resurgence of concern about the policy of nuclear deterrence that the North Atlantic Alliance has followed since the early 1950s In Europe in particular this concern has centered on the role of theater nuclear weapons in NATO strategy This report briefly examines the way in which that strategy evolved from the foundation of the Alliance in 1949 to the formal adoption of the current flexible response strategy in 1967 with particular reference to the role of theater nuclear weapons It then traces the development within the NATO Nuclear Planning Group of the more detailed doctrine concerning the role of theater nuclear weapons within the overall strategy which led *inter alia* to the decision taken by NATO in 1979 to modernize the long term component of the theater nuclear forces The report examines the main arguments that have been advanced against the current flexible response strategy and considers the merits of various alternative strategies The report finally considers ways in which the Alliance's theater nuclear stockpile might be adapted to meet the political and strategic needs of the 1980s

### **NATO's Changing Strategic Agenda**

Colin McInnes,2021-01-26 This book first published in 1990 is an incisive examination of NATO's strategy for the defence of the central front the concern that has lain at the heart of NATO since its formation Politically the central front marked the post war division of Europe into two competing blocs militarily it has represented the area of greatest force concentration and greatest threat As NATO's strategic agenda changed with the end of the Cold War the central front remained a critical concern This book analyses the structure strategy and doctrines of both East and West and examines the relationship of NATO strategy to conventional force doctrines

### **US Military Strategy and the Cold War Endgame**

Stephen J. Cimbala,2014-01-14 At the end of the Cold War security concerns are more about regional and civil conflicts than nuclear or Eurasian global wars Stephen Cimbala argues that deterrence characteristics of the pre Cold War period will in the 21st century again become normative

*NATO's Strategic Choices* James A. Thomson,1986 In order to deal with NATO's principal strategic problem the declining credibility of nuclear escalation threats to deter Warsaw Pact conventional aggression this paper reviews NATO's present strategy examines broad strategic alternatives all of which appear to be ruled out or severely limited by current constraints and concludes that NATO's recourse is to seek modest improvements in conventional capabilities The author argues for three changes to improve conventional defenses 1 changing the NATO defense planning process 2 correcting deficiencies in the weapons acquisition process and 3 setting two priority programs one to preserve the survivability of NATO air operations and the other to increase NATO's operational reserves      *Tactical Nuclear Weapons and NATO* Thomas M. Nichols,Douglas T. Stuart,Jeffrey D. McCausland,Army War College (U.S.). Strategic Studies Institute,2012 is understudied both inside and outside of government Tactical weapons although less awesome than their strategic siblings carry significant security and political risks and they have not received the attention that is commensurate to their importance Second it is clear that whatever the future of these arms the status quo is unacceptable It is past the time for NATO to make more resolute decisions find a coherent strategy and formulate more definite plans about its nuclear status Consequently decisions about the role of nuclear weapons within the Alliance and the associated supporting analysis are fundamental to the future identity of NATO At the Lisbon Summit in Portugal in November 2010 the Alliance agreed to conduct the Deterrence and Defense Posture Review DDPR This effort is designed to answer these difficult questions prior to the upcoming NATO Summit in May 2012

**The Future of Extended Deterrence** Stéfanie von Hlatky,Andreas Wenger,2015-09-01 Are NATO's mutual security commitments strong enough today to deter all adversaries Is the nuclear umbrella as credible as it was during the Cold War Backed by the full range of US and allied military capabilities NATO's mutual defense treaty has been enormously successful but today's commitments are strained by military budget cuts and antinuclear sentiment The United States has also shifted its focus away from European security during the wars in Afghanistan and Iraq and more recently with the Asia rebalance Will a resurgent Russia change this The Future of Extended Deterrence brings together experts and scholars from the policy and academic worlds to provide a theoretically rich and detailed analysis of post Cold War nuclear weapons policy nuclear deterrence alliance commitments nonproliferation and missile defense in NATO but with implications far beyond The contributors analyze not only American policy and ideas but also the ways NATO members interpret their own continued political and strategic role in the alliance In depth and multifaceted The Future of Extended Deterrence is an essential resource for policy practitioners and scholars of nuclear deterrence arms control missile defense and the NATO alliance

Gregory, 1995-12-18 For more than forty years NATO premised its defence on credible nuclear deterrence Underwriting this deterrence was NATO's strategy and the nuclear weapons and command and control systems intended to make the strategy an operational reality This book examines NATO's attempts between 1952 and 1990 to achieve the political and military control of nuclear weapons operations in a multinational organisation By using case studies of US British French and NATO nuclear weapons operations and empirical evidence from Cold War crises it provides an analysis of NATO's experience and offers insights for the present day **Bernard Brodie and the Foundations of American Nuclear Strategy** Barry Howard Steiner, 1991 Steiner analyzes how and why Brodie's understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie's work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

**US Military Strategy and the Cold War Endgame** Stephen J. Cimbala, 1995 The transition from the end of the Cold War to a new world order is both promising and perilous The US and its NATO allies were caught largely unprepared by the rapid collapse of the Warsaw Pact the sudden demise of the Soviet Union and the reunification of Germany events that redrew the map of East Central Europe and shifted US security concerns eastward in Eurasia They also redefined security as

a condition based more on the prevention or containment of regional and civic conflicts compared with the Cold War expectations of global or nuclear war. The next century is certain to strain US and NATO strategy considerably if indeed NATO survives at all. A new group of interstate institutions for European security will compete for the right to claim pre-eminence in security issues. International peace keeping and peace enforcement whether United Nations directed or regionally sponsored will also challenge traditional definitions of military missions. Changes will also occur in the role of nuclear weapons in military strategy. US and Russian strategic nuclear forces will be drastically reduced and both states will take other steps to dampen the nuclear arms race. The antagonists of the Cold War will be the collaborators of the next century in seeking to stabilize conflicts inside and outside Europe. **The United States and Germany in the Era of the Cold War, 1945-1990** Detlef Junker, Philipp Gassert, Wilfried Mausbach, David B. Morris, 2004-05-17 Publisher Description

On NATO Strategy ,1988    **Tactical Nuclear Weapons and NATO** ,2012 NATO has been a nuclear alliance since its inception. Nuclear weapons have served the dual purpose of being part of NATO military planning as well as being central to the Alliance's deterrence strategy. For over 4 decades NATO allies sought to find conventional and nuclear forces doctrines and agreed strategies that linked the defense of Europe to that of the United States. Still in light of the evolving security situation the Alliance must now consider the role and future of tactical or non strategic nuclear weapons (NSNWs). Two clear conclusions emerge from this analysis. First in the more than 2 decades since the end of the Cold War the problem itself that is the question of what to do with weapons designed in a previous century for the possibility of a World War III against a military alliance that no longer exists is understudied both inside and outside of government. Tactical weapons although less awesome than their strategic siblings carry significant security and political risks and they have not received the attention that is commensurate to their importance. Second it is clear that whatever the future of these arms the status quo is unacceptable. It is past the time for NATO to make more resolute decisions find a coherent strategy and formulate more definite plans about its nuclear status. Consequently decisions about the role of nuclear weapons within the Alliance and the associated supporting analysis are fundamental to the future identity of NATO. At the Lisbon Summit in Portugal in November 2010 the Alliance agreed to conduct the Deterrence and Defense Posture Review (DDPR). This effort is designed to answer these difficult questions prior to the upcoming NATO Summit in May 2012. The United States and its closest allies must define future threats and in doing so clarify NATO's identity purpose and corresponding force requirements. So far NATO remains a nuclear alliance but it is increasingly hard to define what that means. **Congressional Record** United States. Congress, 1978    **Challenges to NATO's Consensus** Stanley R.
