Salim Kemal, Ivan Gaskell

Natural Beauties:

Landscape, Natural Beauty and the Arts Salim Kemal, Ivan Gaskell, 1993 *Landscape Natural Beauty and the Arts* offers probing studies of the complex structure of aesthetic responses to nature Each chapter refines and expands the terms of discussion and together they enrich the debate with insights from art history literary criticism geography and philosophy To explore the interrelation between our conceptions of nature beauty and art the contributors consider the social construction of nature the determination of our appreciation by artistic media and the duality of nature s determining in gardening Showing that natural beauty is impregnated with concepts derived from the arts and from particular accounts of nature the volume occasions questions of the distinction and relation between art and nature generally and culminates in a set of philosophical studies of the role of scientific understanding engagement and emotion in the aesthetic appreciation of nature

Natural Beauty Ronald Moore, 2007-08-28 *Natural Beauty* was selected for the Choice Outstanding Academic Title list for 2008 *Natural Beauty* presents a bold new philosophical account of the principles involved in making aesthetic judgments about natural objects It surveys historical and modern accounts of natural beauty and weaves elements derived from those accounts into a syncretic theory that centers on key features of aesthetic experience specifically features that sustain and reward attention In this way Moore s theory sets itself apart from both the purely cognitive and the purely emotive approaches that have dominated natural aesthetics until now *Natural Beauty* shows why aesthetic appreciation of works of art and aesthetic appreciation of nature can be mutually reinforcing that is how they are cooperative rather than rival enterprises Moore also makes a compelling case for how and why the experience of natural beauty can contribute to the larger project of living a good life
