## **Proposing Prosperity?** Jennifer M. Randles, 2016-12-27

Fragile families unmarried parents who struggle emotionally and financially are one of the primary targets of the Healthy Marriage Initiative a federal policy that has funded marriage education programs in nearly every state These programs which encourage marriage by teaching relationship skills are predicated on the hope that married couples can provide a more emotionally and financially stable home for their children Healthy marriage policy promotes a pro marriage culture in which two parent married families are considered the healthiest It also assumes that marriage can be a socioeconomic survival mechanism for low income families and an engine of upward mobility Through interviews with couples and her own observations and participation in marriage education courses Jennifer M Randles challenges these assumptions and critically examines the effects of such classes on participants She takes the reader inside healthy marriage classrooms to reveal how their curricula are reflections of broader issues of culture gender governance and social inequality In analyzing the implementation of healthy marriage policy Randles questions whether it should target individual behavior or the social and economic context of that behavior The most valuable approach she concludes will not be grounded in notions of middle class marriage culture Instead it will reflect the fundamental premise that love and commitment thrive most within the context of social and economic opportunity

four racetracks Gulfstream Park Pimlico Saratoga and the Barrington Fair The then thirty three year old Harvard dropout  
had the credentials for this undertaking two years earlier his book Picking Winners had won a claim from bettors and critics  
alike But the theory of handicapping and the practice of it are two very different things and Beyer did all he could to prepare  
himself for this new challenge He consulted with other professional horseplayers He undertook detailed analyses of trainers  
and their methods He refined his speed handicapping techniques He developed a revolutionary method for evaluating horses  
shipped from one track to another He formulated a bold betting strategy During the year he experienced the dizzying thrill of  
winning more than 10 000 in an afternoon and agonizing frustration that drove him to bash a hole in the wall of the
