Lovers of Discord Abingdon Press, Keith Clements, 2007 We no longer carry this title      **The Oxford History of Anglicanism** Anthony Milton, Jeremy Gregory, Rowan Strong, Jeremy Morris, William L. Sachs, 2017 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non western societies today The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research The series forms an invaluable reference for both scholars and interested non specialists Volume four of The Oxford History of Anglicanism explores Anglicanism examines the twentieth century history of Anglicanism in North America Britain and Ireland and Australasia A historiographical introduction provides insight into changing historical interpretation The volume explores perspectives on secularization decolonization mission and the theological identity of Anglicanism It highlights the global communion's movement away from an Anglo centric leadership and a British imperial legacy towards greater diversity and greater influence for the global south Ten themed chapters open up complementary aspects of the history of Western Anglicanism including theological development social justice women human sexuality ecumenical relations mission and decolonization war and peace liturgical revision sociological analysis and the relationship of the church state and nationalism A further section on institutional development looks at the history of communion wide institutions in the twentieth century and at changing ideas of Anglican identity Later chapters survey the regional history of Western Anglicanism in three substantial chapters examining extensively Australia and New Zealand North America and the British Isles      **Lovers of Discord** Keith W. Clements, 1988 In this fascinating and perceptive survey Keith Clements portrays the major characters and issues in these episodes of discord setting each debate against the wider cultural and religious background of the time and showing how deeply non theological factors can influence theological discussion He argues in his conclusion that the reasons for recurring conflict in theology lie deep within modern Western consciousness and that the future no less than the past few generations is likely to see a continued succession of lovers of discord      The Scandal of Evangelicals and Homosexuality Mark Vasey-Saunders, 2016-03-09 English evangelicals give the appearance of being a community at war with each other and with the world around them The issue of homosexuality is one of the key battlegrounds How has this issue become so significant to evangelicals Why is it provoking such violent responses How is it changing evangelicals and what might this mean for the future This book examines the history of evangelical responses to the issue of homosexuality setting them in a

wider historical and cultural context and drawing on the work of Rene Girard to argue that the issue of homosexuality has come to symbolise deeply held convictions within evangelicalism The conflict over the issue that is now becoming apparent within evangelicalism reveals deep divisions within the evangelical community that will have great significance for the future The Scandal of Evangelicals and Homosexuality offers an alternative perspective seeking not to present an answer to the ethical question but rather to examine the way the debate has become scandalised and consider the cost It offers a window into contemporary English evangelicalism and provides an important contribution to international and ecumenical debate

**The Oxford History of Anglicanism, Volume IV** Jeremy Morris, 2017-02-16 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non western societies today The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research The series forms an invaluable reference for both scholars and interested non specialists Volume four of The Oxford History of Anglicanism explores Anglicanism examines the twentieth century history of Anglicanism in North America Britain and Ireland and Australasia A historiographical introduction provides insight into changing historical interpretation The volume explores perspectives on secularization decolonization mission and the theological identity of Anglicanism It highlights the global communion's movement away from an Anglo centric leadership and a British imperial legacy towards greater diversity and greater influence for the global south Ten themed chapters open up complementary aspects of the history of Western Anglicanism including theological development social justice women human sexuality ecumenical relations mission and decolonization war and peace liturgical revision sociological analysis and the relationship of the church state and nationalism A further section on institutional development looks at the history of communion wide institutions in the twentieth century and at changing ideas of Anglican identity Later chapters survey the regional history of Western Anglicanism in three substantial chapters examining extensively Australia and New Zealand North America and the British Isles *British Christians and the Third Reich* Andrew Chandler, 2022-05-19 A new approach to the moral and intellectual debates provoked by Nazism in Germany the Holocaust and World War II Geoffrey Fisher David Hein, 2008-01-01 A major figure in twentieth century Christianity Geoffrey Fisher worked to modernize the Church of England and to develop the worldwide Anglican Communion His historic meeting with Pope John XXIII his participation in national debates on the Suez Crisis and nuclear weapons and his role in crowning Queen Elizabeth II made him a well known figure in postwar Britain His neglect by professional

historians is partly remedied by this new biography the first scholarly account of Fisher's life and career     *The Encyclopaedia of Christianity, Vol. 5* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth     **Protestant Nonconformist Texts: The twentieth century** David Michael Thompson, Kenneth Dix, 2006 This is the final volume in a four volume series using contemporary texts to illustrate key themes in the history of Nonconformity in England and Wales Although the twentieth century was in many ways a century of decline this book shows that there was still much life in the nonconformist tradition It also looks at contemporary issues such as racism and the place of women     **The Reception of 'Abdu'l-Bahá in Britain** Brendan McNamara, 2020-10-26 In exploring Abdu'l Bah's visits to Britain Brendan McNamara expands the jigsaw of our knowledge of how the east came west More importantly by exploring the visits through the motives of those that received him The Reception of Abdu'l Bah in Britain East Comes West demonstrates that the cultic milieu thesis is incomplete Focusing on a number of well known Edwardian Protestant reformers the book demonstrates that the arrival of eastern forms of religions in Britain penetrated more mainstream Christian forms This process is set within significant developments in the early formation of the study of religions the rise of science and orientalism All these elements are shown to be linked together Significantly the work argues that the advent of World War One changed the direction of new forms of religion leading to a forgetfulness that has lasted until the present time     Bulletin of Dr. Williams's Library Dr. Williams's Library, 1989     **Conceptions of Unity in Recent Ecumenical Discussion** Simon Harrison, 2000 This is a book length analysis of the term unity as used within recent ecumenical discussion It seeks to present the many conceptions of unity found in discussion whose subtle diversity and number are often a source of confusion and ambiguity     Evangelical Experiences Ian M. Randall, 1999 An examination of movements of spirituality found within evangelical protestantism in England between the first and second world wars

Hart, Richard Bauckham, 2000 Major reference work on key figures in the history of the church and their theology     *The Making of a Modern Denomination* Peter Shepherd, 2001     **Guys and the Future of Anglicanism** Andrew Linzey, Richard Kirker, 2005 This timely collection offers a means of grappling with what has become one of the most controversial issues within Anglicanism     *Gathering of Infidels* Bill Cooke, 2004-07 No Marketing Blurb     **Congregationalism in Wales** Robert Tudur Jones, 2004 The first English translation of a comprehensive study of the history of Congregationalism in Wales 1630-1962 by the most prominent historian scholar in the field together with the editor's own piercing comments on religious decline in Wales between 1960 and 2000 First published in Welsh in 1966     The Shadow of the Antichrist Stephen N. Williams, 2006-06 In *The Shadow of the Antichrist* Williams fills a significant gap in the scholarly literature by examining Nietzsche's critique of Christianity and his continuing influence Williams begins with a basic question What was it about Christianity that caused Nietzsche's agitation He aims to answer

that question not with a systematic survey of Nietzsche's thought but rather through a careful examination of themes that emerge in his ruminations on religion BOOK JACKET *Educating Evangelicalism* Ian M. Randall, 2000
