Loving To Survive Sexual Terror Mens Violence And Womens Lives:

Loving to Survive Dee L.R. Graham, Edna I. Rawlings, Roberta K. Rigsby, 1994 This seemingly bizarre reaction to captivity in which the hostages and captors mutually bond to one another has been documented in other cases as well and has become widely known as Stockholm Syndrome

Sex, Feminism and Lesbian Desire in Women's Magazines Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women's sexuality In charting changes in the sex and relationship content of women's magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women's sexual and emotional maintenance of male partners and their own self objectification and self surveillance Where substantive changes can be identified they rise and fall in tandem with feminism By demonstrating this empirical relationship between cultural products and feminism organising the book validates an assumption that has rarely been tested that a feminist social milieu improves cultural narratives about sexuality for women *Sex Feminism and Lesbian Desire* builds on ground breaking feminist texts such as Susan Faludi's *Backlash* to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women's magazines By charting the representation of sex and relationships in two women's magazines *Cosmopolitan* and *Cleo* since the 1970s through an analysis of over 6 500 magazine pages and 1 500 articles this timely work interrogates and ultimately complicates the apparent linear progression of feminism This book is suitable for researchers and students in women's and gender studies queer studies LGBT studies media studies cultural studies and sociology

Heterophobia Daphne Patai, 2000-06-28 Once confident in the potential of feminism to create a more equitable and just society Daphne Patai persuasively demonstrates in *Heterophobia* how the efforts of some feminists members of what she calls the sexual harassment industry have created an environment that stifles healthy and natural interactions between the sexes The tremendous growth of sexual harassment legislation represents feminism's greatest contemporary success but this victory has dubious consequences a world where kindergarten boys face legal action for kissing female classmates and men are sued by coworkers for offenses such as unwanted hugs uninvited compliments or glances that last too long

Pornocracy Jo Bartosch, Robert Jessel, 2025-10-21 They say everybody uses porn They're wrong People don't use pornography it uses us And you don't have to watch it to be one of its victims In this thought provoking and timely book Jo Bartosch and Robert Jessel expose how the multi billion dollar pornography industry has humanity gripped in a chokehold From rewiring our brains and normalising sexual violence to shaping new protest movements the pornographic revolution has achieved a stunning and near total victory The triumph of the pornocrats is made more sinister by society's widespread acceptance that all men watch

porn the denial of its devastating harms and a lack of political will to curb the power of the global pornography business The authors answer the questions that politicians and policymakers are too scared to ask Why despite over half a century of feminist gains and lessons in schools on consent do today s school children display more sexist attitudes than their parents and grandparents Do women really want to be choked and humiliated in bed How can we fight back and reclaim sex love and relationships Drawing on the latest research Pornocracy charts how the neurological shifts caused by porn use reverberate through society The book also warns of a dystopian future where AI powered porn and sextech threaten to reduce us all to masturbating meat puppets on an algorithmic production line Provocative and powerful Pornocracy tells the story of how pornography fundamentally changed perhaps forever what it is to be human [Social Work Practice with Survivors of Sex Trafficking and Commercial Sexual Exploitation](#) Andrea J. Nichols,Tonya Edmond,Erin C. Heil,2018-04-03 As awareness and identification of sex trafficking and exploitation have grown so has the need for improved social work responses In this volume expert practitioners survivors and researchers model the best practices for working with this population using case examples and illustrative guides Chapters cover the common challenges of working with trafficked and exploited people and how to overcome them including topics like runaway youth trauma bonds system level challenges and resource scarcity Intended as a teaching tool for students or a supplementary manual for organizations this book emphasizes interventions and treatments working with specific populations programmatic design recommendations preventative work and outreach interventions Researchers students and practitioners will find a comprehensive guide to the emerging field of practice with sex trafficking and exploitation survivors **In Our Backyard: A Christian Perspective on Human Trafficking in the United States** Nita Belles, [Sex Offenders: Punish, Help, Change or Control?](#) Jo Brayford,Francis Cowe,John Deering,2013-05-07 Sex offending and in particular child sex offending is a complex area for policy makers theorists and practitioners A focus on punishment has reinforced sex offending as a problem that is essentially other to society and discourages engagement with the real scale and scope of sexual offending in the UK This book looks at the growth of work with sex offenders questioning assumptions about the range and types of such offenders and what effective responses to these might be Divided into four sections this book sets out the growth of a broad legislative context and the emergence of child sexual offenders in criminal justice policy and practice It goes on to consider a range of offences and victim typologies arguing that work with offenders and victims is complex and can provide a rich source of theoretical and practical knowledge that should be utilised more fully by both policy makers and practitioners It includes work on female sex offenders electronic monitoring and animal abuse as well as exploring interventions with sex offenders in three different contexts prisons communities and hostels Bringing together academic practice and policy experts the book argues that a clear but complex theoretical and policy approach is required if the risk of re offending and further victimisation is to be reduced Ultimately this book questions whether it makes sense to locate responsibility for responding to sexual offending solely within the
