Loyalty and Disloyalty David Knowles, 2013-10-07 Imagine yourself transported to live with an early human hunter gatherer group of 100 or so individuals back about 250 000 years ago Think of them as similar to one of the few forager societies still in existence today As a basis for this exercise it will do for now Can you see any reason why human actions and emotional reactions to those around them in the group were likely to be fundamentally different then to our relationships now No me neither and so you and I should fit in there pretty well The theme of this book is simple enough I hope back then the Group and Loyalty to it was our whole world was everything because without it you would starve to death or be killed by predators Loyalty to the Group was everything and Disloyalty was a crime the only crime My proposition is that that same Disloyalty projected forward into the enormous groups called countries we live in today must still be the basis of most if not all crimes Therefore Loyalty and Disloyalty must also lie at the core of human morality The same feelings now as then the same reaction in you as in me we stretch out the same accusing finger you and I we point and we say that is wrong And despite all the arguments we humans have over right and wrong there is a point a split second as it were in those disagreements when we all point at the same thing at the same derivative of Disloyalty I put it to you that this same thing is nothing other than the basis of human morality all of it in every society everywhere

Unusual Suspects Gilles Paquet, 2022-08-10 *Unusual Suspects* Essays on Social Learning looks into the forces at work that have undermined critical thinking and sound intellectual inquiry in the world of public affairs in Canada have fostered reductive perspectives and destructive blockages to collaborative governance to emerge and have succeeded in blinding observers to the real sources of the present Canadian malaise blocking the road to imaginative repairs Part I deals frontally with the twilight of critical thinking that has led to a dramatic weakening of the critical examination of issues and the process of inquiry that has been significantly weakened by ever narrower perspectives Part II focuses on two mental prisons the obsessive and reductive insistence on a quantophrenic twist only that which can be quantified counts and the failure by crucial partners to live up to the requirements of their burden of office in circumstances when disloyalty considerably enfeebles the possibility of effective collaborative governance and the chance for organizations to succeed Part III suggests that it is not impossible to get rid of the blinders preventing the adoption of more synoptic approaches and the exploration of more imaginative designs to repair our organizations and institutions Ways to deal with the challenges facing the Canadian socio economy are hinted at and the work of a successful social architect showcased The conclusion makes the case for an approach that is both synoptic and

guided by reasonableness against the dogmas of disciplines and skimpy rationality *Los Que Son Ignorantes* Dag Heward-Mills,2014-07-27 En este libro el obispo Dag Heward Mills enseña sobre cómo el ingrediente de la lealtad consolida el desempeño de un líder El uso de referencias bibliográficas históricas y literarias el tema se hace aún más relevante para cada tipo de lector

The Black Hole of Public Administration Ruth Hubbard,Gilles Paquet,2010-11-15 A provocative reimagining of the Canadian public service Public administration in Canada needs to change A handful of scholars across Canada have been sounding the alarm for years but to no avail Talented young bureaucrats have been joining the public service with fresh ideas capable of creating real change but the black hole consumes all In *The Black Hole of Public Administration* experienced public servant Ruth Hubbard and public administration iconoclast Gilles Paquet sound a wake up call to the federal public service They lament the lack of serious play going on in Canada's public administration today and map some possible escape plans They look to a more participatory governance model open source governing or small government as a way to liberate our public service from antiquated styles and systems of governing In their recognizably rebellious style Hubbard and Paquet demand that public administration scholars and senior level bureaucrats pull their heads out of the sand and confront the problems of the current system and develop a new system that can address the needs of Canada today Published in English
