Our War:

Our War on Ourselves Willem H. Vanderburg, 2011-01-01 Willem H Vanderburg's *Our War on Ourselves* explores the type of war we have unleashed on our lives by emphasizing discipline based processes **This Was Not Our War** Swanee Hunt, 2004-11-29 Combines Bosnian women's personal testimony about the recent war and its aftermath with Ambassador Hunt's analysis of the U S government's approach to the conflict Your Country, Our War Katherine A. Brown, 2019-02-01 Journalists are actors in international relations mediating communications between governments and publics but also between the administrations of different countries American and foreign officials simultaneously consume the work of U S journalists and use it in their own thinking about how to conduct their work As such journalists play an unofficial diplomatic role However the U S news media largely amplifies American power Instead of stimulating greater understanding the U S elite mainstream press can often widen mistrust as they promote an American worldview and with the exception of some outliers reduce the world into a tight security frame in which the U S is the hegemon This has been the case in Afghanistan since 2001 particularly as emerging Afghan journalists have relied significantly on U S and other Western news outlets to report events within their government and their country Based on eight years of interviews in Kabul Washington and New York *Your Country Our War* demonstrates how news has intersected with international politics during the War in Afghanistan and shows the global power and reach of the U S news media especially within the context of the post 9 11 era It reviews the trajectory of the U S news narrative about Afghanistan and America's never ending war and the rise of Afghan journalism from 2001 to 2017 The book also examines the impact of the American news media inside a war theater It examines how U S journalists affected the U S Afghan relationship and chronicles their contribution to the rapid development of a community of Afghan journalists who grappled daily with how to define themselves and their country during a tumultuous and uneven transition from fundamentalist to democratic rule Providing rich detail about the U S Afghan relationship especially former President of Afghanistan Hamid Karzai's convictions about the role of the Western press we begin to understand how journalists are not merely observers to a story they are participants in it *Pictorial History of our War with Spain* Trumbull White, 2018-04-05 Reproduction of the original *Pictorial History of our War with Spain* by Trumbull White When it was Our War Stella Suberman, 2003-01-01 The author offers an intimate portrait of life on the home front during World War II capturing her experiences as a military wife following her husband around the country from base to base and waiting back home for him to return **History of the American Privateers, and Letters-of-marque, During Our War with England in the Years 1812, '13, and '14** George Coggeshall, 1861 **Our War Too** Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation's entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United

States became involved in the war but does so through the eyes of American women who faced it as a necessary evil. Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women's organizations, informal women's networks and even male dominated lobbying groups. In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U.S. involvement but also because they believed war was preferable to a Nazi victory. Paton Walsh shows that this activism involved some of the most prominent women of their day. Elizabeth Cutter Morrow whose son-in-law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast. Soon other women joined this debate. Esther Brunauer of the AAUW, journalist Dorothy Thompson and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause. Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless. By late 1941 the Women's Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression. While most historians have focused on women's pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs. *Our War Too* is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace. It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war.

Rethinking Our War on Drugs Gary L. Fisher, 2006-09-30. The National Drug Control Policy has failed its two major functions: supply reduction and demand reduction due to faulty assumptions regarding nearly every aspect of the alcohol and drug fields, charges author Fisher. Yet in spite of overwhelming evidence of this failure policy makers have strongly resisted discussing major changes to the assumptions that underly current policy because of political pressure, bias and philosophical intransigence, he adds. Fisher discusses controversial topics and defends uncommon approaches in chapters focused on subjects including legalization, harm reduction, the futility of supply reduction, the problem of underage drinking and effectiveness of treatment and prevention. He proposes a new national policy for drug control including elimination of the war metaphor, inclusion of alcohol in the mandate, conceptualization of addiction as a public health problem, utilization of harm reduction principles to guide policy and discontinuation of approaches that isolate drug and alcohol problems from their connection to broader social issues such as poverty. In this work the premises of the current National Drug Control Strategy are challenged and both Democratic and Republican administrations across the last 10 years are critically examined. Statements of the Director of the Office of

National Drug Control Strategy are critiqued Major points include that there is no evidence the NDCS has achieved any of its goals that harm reduction should be its guiding principle and supply reduction should not be part of the national strategy
