[Optimal Physical Activity across the Lifespan for People of All Abilities](#) Ronald F. Zernicke, David Arthur Hart, Humans evolved to be mobile within the boundary conditions of Earth and many biological and physiologic systems depend on mechanical loading to maintain integrity during growth and maturation during skeletal maturity and during the aging process These systems subscribe to the use it or lose it principle and thus require continual use to maintain integrity Given that premise considerable basic and clinical research efforts have been directed at optimizing the effectiveness and positive impact of exercise on sports performance and the well being of those with intact systems However those with disabilities or compromised abilities also benefit from exercise protocols and there exists a need to focus attention on these populations as well Given the myriad of biological and physiological systems that benefit from exercise and mechanical loading there is a need for all humans of varying abilities to not only maintain the integrity of their health but to attempt to optimize it recognizing that optimizing each person's health across the stages of the life cycle may require different exercise protocols dependent on stage of life sex genetics and other individualized variables For those with physical disabilities embracing and maintaining such exercise protocols may be challenging but expanded research translation of findings and integration of the outcomes into everyday life to enhance the health and well being of this significant population are needed going forward

*The Nurse's Role in Promoting Optimal Health of Older Adults* Jean W Lange, 2011-09-02 Awarded a 2012 AJN Book of the Year Award Why focus on the negative aspects of growing old while most older adults are leading positive fulfilling and active lives even while dealing with the changes associated with aging and chronic illnesses Promote healthy aging learn what it means to age successfully and develop the tools and resources that can optimize well being during the later years in life with the guidance you'll find inside The author a nationally recognized expert in the field of gerontology addresses the physical psychosocial and spiritual needs of older adults based on a holistic mid range nursing theory of successful aging Contributions from healthcare professionals
