Orangutans Animal Safari:

Orangutans Megan Borgert-Spaniol, 2008-01-01 Orangutans spend much of their time in quiet solitude. That is unless they've just given birth. Babies spend several years with their mother clinging to her back as she swings from branch to branch in search of food. Learn more about the orangutan's treetop life in this fact-filled title.

Orangutans Mary-Claire Helldorfer, National Geographic Society, 1999 National Geographic's spectacular photography takes young readers to the rain forest world of the orangutan. They'll learn about this appealing creature's behavior and environment as they watch it swing from branch to branch, build new nests and gather food.

To the Secretary Mary Thompson-Jones, 2016-07-12 A former American diplomat reveals a disconnect between Washington policymakers and those who work in US embassies. When the world awoke on November 28, 2010 and read the first of the 251,287 State Department cables made public by WikiLeaks, Italian Foreign Minister Franco Frattini warned, "It will be the September 11th of world diplomacy." The WikiLeaks scandal certainly stirred tempers around the world, but it was not the implosion that many leaders expected; rather, it shed a new spotlight on the work of the US foreign service. In *To the Secretary*, Mary Thompson Jones explores the most fascinating and overlooked of these cables to offer an unparalleled window into the day-to-day work of US diplomats, demystifying the lives of those who implement America's foreign policy across the globe. From the story of Bulgaria's Aleksi the Tractor Petrov to disappearing ballot ink in Ukraine, a Honduran coup d'état or disaster relief for a devastated Haiti, *To the Secretary* depicts the work of ambassadors and foreign service officers through their firsthand narratives dealing with crises, corruption and testy world leaders. Negotiating distinctly un-American customs and corridors of power, these shrewd brokers in embassies from Argentina to Zimbabwe worked tirelessly to promote American diplomacy in a world frequently hostile to the United States.

To the Secretary also reveals the disconnect that diplomats face at home, guided by conflicting approaches from multiple Washington stakeholders intent on their own agenda, often unaware of realities on the ground. In an honest assessment of America's foreign policy challenges, Thompson Jones describes the deepening gulf between decision makers in Washington and their diplomats in the field. From misinterpreted analyses of anti-Americanism to Washington's unwillingness to send resources to support diplomatic activities that could make a difference, *To the Secretary* shows what policymakers can learn from diplomats abroad and how this can strengthen America's place in an unstable world.

Animals and the Environment Lisa Kemmerer, 2015-05-01 Contemporary Earth and animal activists rarely collaborate, perhaps because environmentalists focus on species and ecosystems while animal advocates look to the individual and neither seems to have much respect for the other. This diverse collection of essays highlights common ground between earth and animal advocates, most notably the protection of wildlife and personal dietary choice. If earth and animal advocates move beyond philosophical differences and resultant divergent priorities, turning attention to shared goals, both will be more effective and both animals and the environment will benefit. Given the undeniable seriousness of the environmental problems that we face, including

climate change and species extinction it is essential that activists join forces Drawing on a wide range of issues and disciplines ranging from wildlife management hunting and the work of NGOs to ethics ecofeminism religion and animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the environment or animals [The Regional Travel Guide for Kalimantan \(Indonesia\)](#) YouGuide Ltd, **Animal Underworld**

Alan Green,2006-03-07 A shocking investigative expos documents the big business of exotic animal trafficking and implicates leading zoos wildlife parks and dealers nationwide [Speaking Up for Animals](#) Lisa Kemmerer,2015-11-17 Speaking Up for Animals highlights eighteen courageous members of a growing international animal advocacy movement that is overwhelmingly powered by women These remarkable activists take us with them as they lift factory farmed chickens and cows from quagmires of filth free gigantic sea lions caught in fishing gear and secure undercover footage of dogs crying for mercy on stainless steel vivisection tables In the process these dedicated women expose the many ways that most of us are complicit in the suffering and exploitation of animals and creatively suggest a variety of ways in which we might help bring change
