Patronal Politics Henry E. Hale, 2015 This book proposes a new way of understanding events throughout the world that are usually interpreted as democratization rising authoritarianism or revolution Where the rule of law is weak and corruption pervasive what may appear to be democratic or authoritarian breakthroughs are often just regular predictable phases in longer term cyclic dynamics patronal politics This is shown through in depth narratives of the post 1991 political history of all post Soviet polities that are not in the European Union This book also includes chapters on czarist and Soviet history and on global patterns

Aspects of the Orange Revolution I Paul D'Anieri, Taras Kuzio, 2007-11-22 Ukraine's 2004 presidential election was falsified spurring the Orange Revolution To many observers the Orange Revolution was a shock and the stolen election a recent development However both the election fraud and the effort to topple the government of Leonid Kuchma emerged from political dynamics that had appeared in earlier Ukrainian elections In this path breaking volume leading scholars place Ukraine's 2004 Orange Revolution in the longer perspective of Ukraine's post Soviet electoral politics Covering both presidential and parliamentary elections over the entire post Soviet period the chapters clarify the manner in which earlier elections had emerged as part of the battle for power in Ukraine well before 2004 The opposition that came to power in 2004 had also won the 2002 elections and had developed its strategies during opposition protests that had been catalyzed by the Kuchmagate crisis in 2000 The evolution of the dynamics that led to the fraudulent 2004 election reveals that the events of 2004 represented continuity as well as change By placing the 2004 elections within a longer trajectory the volume enriches our understanding of the Orange Revolution and helps us to understand the difficulties faced in consolidating Ukraine's democratic breakthrough following the Orange Revolution The volume contains an introduction to Aspects of the Orange Revolution I VI by Andreas Umland followed by eight chapters by Robert K Christensen Edward R Rakhimkulov and Charles Wise Paul D Anieri Robert Kravchuk and Victor Chudowsky Paul Kubicek Taras Kuzio Lucan Way and Anna Makhorkina These authors bring complex and varied perspectives that situate Ukraine's post Soviet elections in economic reforms constitutional law foreign policy objectives of integrating into Europe as well as in the broader context of the rough and tumble competition for political control of Ukraine
