### **Orbit 13 Thirteen:**

**Tragedy and Triumph in Orbit** Ben Evans, 2012-06-01 April 12 2011 is the 50th anniversary of Yuri Gagarin's pioneering journey into space. To commemorate this momentous achievement Springer Praxis is producing a mini series of books that reveals how humanity's knowledge of flying, working and living in space has grown in the last half century. **Tragedy and Triumph** focuses on the 1980s and early 1990s, a time when relations between the United States and the Soviet Union swung like a pendulum between harmony and outright hostility. The glorious achievements of the shuttle were violently arrested by the devastating loss of *Challenger* in 1986, while the Soviet program appeared to prosper with the last *Salyut* and the next generation *Mir* orbital station. This book explores the continued rivalry between the two superpowers during this period, with each attempting to outdo the other: the Americans keen to build a space station, the Soviets keen to build a space shuttle, and places their efforts in the context of a bitterly divisive decade which ultimately led them into partnership. **The N.E.S.F.A. Index to the Science Fiction Magazines and Original Anthologies**, 1974 *The Flaming Sword*, 1899

**When it was Light** Henry Lee Stoddard, 1924 *Special Ops* Orr Kelly, 2017-08-08 Four military histories from a writer whose fine work should be of great interest both to casual readers and to uniformed students of special ops. Publishers Weekly: An expert in military affairs, Orr Kelly reveals the cutting edge technology and jaw-dropping courage of the US military's elite forces on land, sea and air. **Brave Men, Dark Waters** Originating in World War II as Underwater Demolition Teams, the Navy SEALs are the best of the best in the armed forces, known for their toughness and fearlessness and their remarkable ability to get the job, any job, done. Facing America's enemies across the globe, these modern warriors were the first to enter the fight in Vietnam, Panama, Grenada and Iraq. **Brave Men, Dark Waters** is the most complete in-depth study of this fabled elite unit. Library Journal: Never Fight Fair. Here in their own words are the true accounts of the US Navy SEALs from their formation in World War II to the jungles of Vietnam to the deserts of Iraq. In this riveting oral history, these brave men speak openly about their training and their missions, offering the uncensored, inspiring and sometimes shocking truth about their combat triumphs and their rare but devastating failures. **Hornet** Born in 1978, the McDonnell Douglas F/A-18 Hornet has forever changed the way America's wars are fought. This is the fascinating true story of the controversial development and deployment of the state-of-the-art supersonic fighter and attack aircraft with a top speed of more than one thousand miles per hour. Kelly details how Hornet came to be, how it was nearly doomed by an unprecedented political battle, and how it has served ably in combat from its first mission in Libya to Operation Desert Storm and well beyond. From a Dark Sky: Very little is known about US Air Force Special Operations, yet their exploits have been as daring and their achievements as remarkable as anything accomplished by their brother warriors. Since World War II, these ultrasecretive air commandos have routinely performed the nearly impossible, from providing air support for partisans in Nazi-occupied France to participating in clandestine CIA operations in Vietnam and Cambodia to secretly inserting covert operatives into North Korea.

From a Dark Sky is a well conceived and well executed well deserved tribute to an uncommonly fine body of American warriors Booklist      **The N.E.S.F.A. Convulsed the Assyrian Empire and as the heir Esarhaddon fought the murders the massed Ten Tribes took the opportunity to move westwards across both the upper branches of the Y shaped Euphrates river as described in the Book of Esdras II They moved slowly and unstoppably through Siasia Minor and the Greeks recorded their migration as that of the Kimmerio Khumry There is a record of the Khumry having the Ark with them on this journey from north of Assyria through Asia Minor and to the Dardanelles Finally around 650 BC the nation split into two and one half migrated to Italy whilst the other half remained in the areas around Byzantium until circa 504 BC when they gathered on the island of Lemnos before sailing to Britain in the fleets An inscribed stone that was found on Lemnos in 1876 and now in the Athens museum that records this gathering and the intent to sail to Britain Either the Ark was taken to Etrurian Italy in circa 650 BC or it remained near the Dardanelles until around 504 BC before being brought into Britain The fact is that the Greal or Holy Greal is simply a record and a comparison would be that the Bible the Koran the American Declaration of Independence or the Two Tablets brought down the mountain by Moses would all be greals Britain is the land of the Holy Greal The search was begun to locate the Ark in Britain and this proved to be relatively straightforward but technically different The persistent ancient legend in the area north of Cardiff is that a great chest lies buried and this chest is guarded by two Cigfrangawr Giant Ravens It is not difficult to perceive that this great chest is the Ark that has two golden Cherubim fearsome dragons figures What emerged was that these had been a direct transfer of culture from Israel to Britain and all across the hills of South Wales there are gigantic mounds and these huge mounds are named and set out in a pattern to mirror the pattern of the major stars in the heavens Then there are several ancient tales that tell of the great plants moving on their orbits and being in conjunction with the main stars of the various constellations The journeys of the planets seen as moving and not fixed stars are tracing out routes that can be followed around the Star t Mound Maps on the ground In short our British ancestors left us clear records of where to go The Ark is at a place where the giant mound marks the star Regulus in Leo the Lion the Judean emblem The ancient place name is The Enclosure of the Ark and the central area is The Place of Worship The top of the large hillock has clearly been molded by the hand of man and satellite photography showed spoil heaps tumbling down the slopes form a tunnel excavated horizontally to underground chambers Five very ancient drainage systems of the type used in antiquity to drain and keeps chambers dry are clearly evident Amazingly the Above sea Levels readings of satellite photography proved absolutely that the top 60 feet of this low dome shaped hill is a man made construction This is unassailable incontrovertible and absolute scientific proof of the highest order Ground penetrating radar and other methods shows at least two underground chambers and deep reading g electronic metal detection identifies a large non ferrous box of around four feet long and two feet wide This is the precise size of the Ark of the Covenant An approach has been made to the Welsh National Assembly and hopefully something positive will at last be done to restore Khumric British heritage cultures and history
