Networks of Music and Culture in the Late Sixteenth and Early Seventeenth Centuries David J. Smith,Rachelle Taylor,2016-04-29 Peter Philips c 1560 1628 was an English organist composer priest and spy He was embroiled in multifarious intersecting musical social religious and political networks linking him with some of the key international players in these spheres Despite the undeniable quality of his music Philips does not fit easily into an overarching progressive view of music history in which developments taking place in centres judged by historians to be of importance are given precedence over developments elsewhere which are dismissed as peripheral These principal loci of musical development are given prominence over secondary ones because of their perceived significance in terms of later music However a consideration of the networks in which Philips was involved suggests that he was anything but at the periphery of the musical cultural religious and political life of his day In this book Philips s life and music serve as a touchstone for a discussion of various kinds of network in the late sixteenth and early seventeenth centuries The study of networks enriches our appreciation and understanding of musicians and the context in which they worked The wider implication of this approach is a constructive challenge to orthodox historiographies of Western art music in the Early Modern Period **Grove's Dictionary of Music and Musicians** George Grove,1908 *The Tablet* ,1876 **A Dictionary of Music and Musicians (A.D. 1450-1889) by Eminent Writers, English and Foreign** ,1883 Dictionary of Music and Musicians George Grove,1898 **A Dictionary of Music and Musicians** George Grove,John Alexander Fuller-Maitland,1889 **Dictionary of Music and Musicians** Sir George Grove,John Alexander Fuller-Maitland,1895 **A Dictionary of Music and Musicians (A.D. 1450-1889)** George Grove,1883 *A Dictionary of Music and Musicians (A.D. 1450-1880) by Eminent Writers, English and Foreign* George Grove,1883
