Organisation Of Knowledge In Victorian Britain:

The Organisation of Knowledge in Victorian Britain Martin Daunton, 2005-05-26 This collection of essays explores the questions of what counted as knowledge in Victorian Britain who defined knowledge and the knowledgeable by what means and by what criteria During the Victorian period the structure of knowledge took on a new and recognizably modern form and the disciplines we now take for granted took shape The ways in which knowledge was tested also took on a new form with the rise of written examinations New institutions of knowledge were created museums were important at the start of the period universities had become prominent by the end Victorians needed to make sense of the sheer scale of new information to popularize it and at the same time to exclude ignorance and error a role carried out by encyclopaedias and popular publications By studying the Victorian organization of knowledge in its institutional social and intellectual settings these essays contribute to our wider consideration of the complex and much debated concept of knowledge *The Organisation of Knowledge in Victorian Britain* Martin J. The Making of the Humanities Rens Bod, Jaap Maat, Thijs Weststeijn, 2025-10-01 This much awaited second volume investigates the changes in subject method and institutional context of the humanistic disciplines around 1800 offering a wealth of insights for specialists and students alike Point of departure is the pivotal question whether there was a paradigm shift in the humanities around 1800 or whether these changes were part of a much longer process The authors provide an overarching perspective including philology musicology art history linguistics historiography philosophy and literary theory They also make clear that the influence from the East from the Ottoman Empire to China was crucial for the development of the European humanistic disciplines

Knowledge, Networks and Policy James Hopkins, 2015-05-08 The region has been used to understand and propose solutions to phenomena and problems outside the dominant spatial scale of the twentieth century the nation state Its influence can be seen in multiple social science disciplines and in public policy

across the globe But how was this knowledge organised and how were its concepts transmuted into public policy This book charts the development of the academic field of Regional Studies and the application of its concepts in public policy through its learned society the Regional Studies Association In their modern form learned societies often play a complementary role to universities offering networks that operate in the spaces between and beyond universities connecting specialised academics and knowledge and making it possible for them to have impact outside the academy In contrast to the geographically tangible and popularly understood role of the university contemporary learned societies are nebulous networks that transcend barriers and whose contribution is difficult to discern However the production and dissemination of knowledge would be stunted were it not for the learned society connecting scholars through a network of publications and events This book traces the intellectual history of regional studies and regional science from the 1960s into the 2000s and the impact of the regional concept in public policy through the changing priorities of government in the UK and Europe By approaching the history through the Regional Studies Association it interrogates the role and function of the learned society model of organisation in contemporary academia and importance as a knowledge exchange vehicle for public policy influence

Spaces of Global Knowledge Dr Jonathan Jeffrey Wright, Dr Diarmid A Finnegan, 2015-11-28 This book focuses on the life geographies material practices and varied contributions to knowledge be they medical or botanical cartographic or cultural of actors whose lives crisscrossed an increasingly connected world Integrating detailed archival research with broader thematic and conceptual reflection the individual case studies use local specificity to shed light on global structures and processes revealing the latter to be lived and experienced phenomena rather than abstract historiographical categories This volume makes an original and compelling contribution to a growing body of scholarship on the global history of knowledge

Intoxication and Society Jonathan Herring, Ciaran Regan, Darin Weinberg, Philip Withington, 2012-12-21 Intoxicants substances that alter a person's mental and physiological state are a continuing obsession In their effect on the mind and body intoxicants go to the heart of what it means to be human In the tensions between free and uninhibited consumption on the one hand and the pressures of social regulation and personal responsibility on the other they also illuminate the daily paradoxes and sheer complexity of living in modern Western societies Yet this complexity and the rich history that underpins it is often lost in the current debates over public policy Intoxication and Society sets out to supplement the contemporary discourse surrounding intoxication with a more nuanced appreciation of the history and nature of what is very much a multidimensional problem It does so by employing an interdisciplinary framework that includes contributions from leading academics in law sociology anthropology history literature neuroscience and social psychology The result is a subtle historical and contemporary rereading of the social construction of intoxication that will provide a secure basis for analysis as society continues to respond to the problematic pleasures of intoxication

Knowledge Management and Learning Organizations Carolina Machado, J. Paulo Davim, 2021-04-26 This book focuses on knowledge management and

learning organizations showing how they realise entrepreneurship and innovation Understanding knowledge management as the process of creating sharing and managing an organization s information and knowledge and focusing learning organizations in their collaborations to promote continuous learning are two issues that are critical to the organizational success As such this book offers insights into the topic and the appropriate use of the tools and strategies that drive competitive organizations operating on an international or transnational scale *Enlightenment, Modernity and Science* Paul A. Elliot,2010-10-30 Paul Elliott s account provides a full length study of the complex geographies of Georgian scientific culture in England He looks at the ways in which the production and consumption of scientific ideas was varied according to the places and spaces in which it was received *Archives* ,2007 *Hidden Histories of Exploration* Felix Driver,Lowri Jones,2009 This project takes a new look at the extensive historical collections of the Royal Geographical Society with IBG by highlighting the role of intermediaries and indigenous peoples in the history of exploration Its main focus will be a major exhibition to be held at the RGS IBG South Kensington from 15 October to 10 December 2009 The Society s collections constitute a unique record of the history of global exploration and cultural encounter The exhibition will consider the ways in which encounters between British explorers and indigenous peoples are represented in these collections It aims to challenge the perspective of standard histories of exploration in which the contributions of locals are relegated to the margins **The Nature of the World** David Rubinstein,2009 David Rubinstein was born in Cleveland Ohio and sacrificed his passion for baseball to become a student in London 55 years ago He taught history in schools there later became a senior lecturer at Hull University and has held academic posts in York and France He has produced the first definitive history of the Yorkshire Philosophical Society now in its 187th year and of the Darwin episode he writes The delay in according recognition to this titan of 19th century science looks timid from our perspective but it must have seemed sensible discretion at the time That s because the YPS s membership was still as it had been from the outset much influenced by clergymen **British Librarianship and Information Work** J. H. Bowman,2007 *Past Into Print* Leslie Howsam,2009 Past into Print explores history books and periodicals as sites of conflict and compromise in order to question how and why historical knowledge is created *American Book Publishing Record* ,2006 *Proceedings* Cambridge Philological Society,2013 *The School Science Review* ,2003 *History of Universities* Mordechai Feingold,2008-08-28 Volume XXIII 1 of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication an indispensable tool for the historian of higher education It offers a lively combination of original research and invaluable reference material **School Science and Technology** Edgar William Jenkins,1993 *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2006
