Technology And Social Change In Rural Areas Gene F Summers,2019-07-11 The possibility of nuclear war the failure of the Green Revolution the capabilities of genetic engineering and other actual and potential effects of technological innovations have created demands for a more humane application of technology Addressing this issue Technology and Social Change in Rural Areas is a clear assessment of the current state of affairs The book begins with a discussion of the changing paradigms of technology adoption and diffusion the dynamics of public resistance and the question of social responsibility in an age of synthetic biology In subsequent sections

the contributors assess the revolutionary effect of technology on agriculture worldwide and conclude that radically new public policies are essential expose the transformations of rural life and communities that result from the localized effects of technology and its use as a weapon in world system politics and critically examine the appropriate technology movement The essays are presented to honor Professor Eugene A Wilkening for his many pioneering and lasting contributions to the study of technology and rural social change The book includes an intellectual biography of Professor Wilkening written by his long time colleague and friend William H Sewell [Harvard Business School Core Collection, 1998](#) Baker Library, 1998 This guide lists approximately 3 500 books recent titles of general interest to the business reader that Harvard Business School faculty researchers and students consider central to their work Revised and updated annually it includes the full bibliographic record for each book and features an appendix of publishers addresses as well as indexes by title author core classics and notable books [Power and Economic Institutions](#) Bo Gustafsson, 1991 This important book written by leading economists and economic historians analyses how institutions are shaped by economic forces how institutions shape economic behaviour and how economics and politics interact in economic development Part I deals with traditional economics and challenges received views of the efficiency of agriculture Part II focuses on transitions to capitalism and recent theories of the origins of capitalist heirarchy at the firm level The final part deals with the role of control organizations and politics in capitalist development

Urbanization and Migration as Factors Affecting Global Economic Development Ushakov, Denis, 2014-11-30 International migration and urbanization are potential solutions for stabilizing the global economy and bolstering local and regional economies However if unregulated they can also put market stability at risk and cause new social problems in both developed and developing countries **Urbanization and Migration as Factors Affecting Global Economic Development** takes a close look at the impact of urbanization and international migration on the global economy Studying the dynamics of these two phenomena in countries across the world as well as the varying successes of regional regulations this publication is a valuable resource for academics interested in further research in urbanization migration and global economic efficiency as well as policymakers involved in regulating international migration and urbanization [Technology and Organizations](#) Paul S. Goodman, Lee S. Sproull, 1990-03-09 Provides new ways for both researchers and managers to think about technology s role in people s organizational lives showing its impact on individuals groups and the organization as a whole Includes original papers from leading scholars to show how new technology requires organizations to make fundamental changes [American Economists of the Late Twentieth Century](#) Warren J. Samuels, 1996 American Economists of the Late Twentieth Century is a collection of essays on the work of 22 contemporary US economists The essays summarize place in perspective and appraise the work of a diverse array of accomplished scholars whose writings represent the best the most promising and the most innovative in the US The economists whose work is discussed include Samuel Bowles and Herbert Gintis Paul Davidson Nancy Folbre Robert H Frank Robert Heilbroner David

Kahneman and Amos Tversky Paul Krugman William Lazonick Gregg Lewis Richard R Nelson and Sidney G Winter Mancur Olson Nathan Rosenberg Thomas Schelling Vernon Smith Robert A Solo Joseph Stiglitz Richard Thaler Lester Thurow and Oliver E Williamson The emphasis of the collection is on both the quality and diversity of the work of different ways of doing economics as it is presently practised Warren J Samuels has brought together a series of original essays written by economists who are distinguished in their own right Historians of economic thought methodologists general economists and specialists in the fields represented by the subjects will welcome American Economists of the Late Twentieth Century as a significant contribution to our understanding of contemporary American economic scholarship *Competitive Advantage on the Shop Floor* William Lazonick, 1990 William Lazonick explores how technological change has interacted with the organization of work with major consequences for national competitiveness and industrial leadership Looking at Britain the United States and Japan from the nineteenth century to the present he explains changes in their status as industrial superpowers Lazonick stresses the importance for industrial leadership of cooperative relations between employers and shop floor workers Such relations permit employers to use new technologies to their maximum potential which in turn transforms the high fixed costs inherent in these technologies into low unit costs and large market shares Cooperative relations can also lead employers to invest in the skills of workers themselves skills that enable shop floor workers to influence quality as well as quantity of production To build cooperative shop floor relations successful employers have been willing to pay workers higher wages than they could have secured elsewhere in the economy They have also been willing to offer workers long term employment security These policies Lazonick argues have not come at the expense of profits but rather have been a precondition for making profits Focusing particularly on the role of labor management relations in fostering flexible mass production in Japan since the 1950s Lazonick criticizes those economists and politicians who in the face of the Japanese challenge would rely on free markets alone to restore the international competitiveness of industry in Britain and the United States The Development of Machines in Production Arthur Serner, 1927
