Optimization In Action:

Global Optimization in Action János D. Pintér, 1995-11-30 In science engineering and economics decision problems are frequently modelled by optimizing the value of a primary objective function under stated feasibility constraints In many cases of practical relevance the optimization problem structure does not warrant the global optimality of local solutions hence it is natural to search for the globally best solution s *Global Optimization in Action* provides a comprehensive discussion of adaptive partition strategies to solve global optimization problems under very general structural requirements A unified approach to numerous known algorithms makes possible straightforward generalizations and extensions leading to efficient computer based implementations A considerable part of the book is devoted to applications including some generic problems from numerical analysis and several case studies in environmental systems analysis and management The book is essentially self contained and is based on the author s research in cooperation on applications with a number of colleagues Audience Professors students researchers and other professionals in the fields of operations research management science industrial and applied mathematics computer science engineering economics and the environmental sciences *Global Optimization in Action* Janos D. Pinter, 2014-01-15 *Bayesian Optimization in Action* Quan Nguyen, 2023-11-14 Bayesian Optimization in Action teaches you how to build Bayesian Optimisation systems from the ground up This book transforms state of the art research into usable techniques you can easily put into practice With a range of illustrations and concrete examples this book proves that Bayesian Optimisation doesn t have to be difficult *Optimization in Action* Laurence Charles Ward Dixon, 1976 A survey of methods for minimizing sums of squares of nonlinear Smoothed non functional interpretations of statistical and experimental data Parameterization of nonlinear least square fitting problems Use of optimization techniques in optical filter design An application of optimization techniques to the design of an optical filter Least squares fitting of microphone arcs A view of unconstrained optimization Optimization of frequency selective electrical networks The choice of design parameters for overhead line vibration dampers **Optimization in Action : Proceedings of the Conference on Optimization in Action Held at the University of Bristol in January** Conference on Optimization in Action (1975 : University of Bristol), 1976 SIAM Journal on Control and Optimization Society for Industrial and Applied Mathematics, 1976
