Orangeism The Making Of A Tradition:

Orangeism Kevin Haddick-Flynn, 1999 Events centred around the Drumcree Parish Church and the Garvaghy Road have focused worldwide attention on the Orange Order and the Loyal orders in general Taking its name from the historic figure of William of Orange the Orange Order has become in the eyes of many synonymous with bigotry and triumphalism Much of the history of the Order remains untold and unexplored In this study of the history of Orangeism Kevin Haddick Flynn presents the reader with a comprehensive and definitive account of the Order from its foundation in the 17th century through centuries of growth and conflict and brings us right up to 1999 and the turmoil of recent years culminating in the schism in the order in the wake of the murder of three Quinn brothers in the Summer of 1998 *Loyalism and the Formation of the British World* Allan Blackstock, Frank O'Gorman, 2014 Explores loyalism as a social and political force in eighteenth and nineteenth century British colonies and former colonies Loyalism in Britain and Ireland which was once seen as a crude reaction against radicalism or nationalism stimulated by the elite and blindly followed by plebeians has recently been shown by historians to have been on the contrary a politically multi faceted socially enabling phenomenon which did much to shape identity in the British Isles This book takes further this revised picture by considering loyalism in the wider British World It considers the overall nature of loyalism exploring its development in England Ireland and Scotland and goes on to examine its manifestation in a range of British colonies and former colonies including the United States Canada India Australia and New Zealand It shows that whilst eighteenth century Anglo centric loyalism had a core of common ideological assumptions associational structures and ritual behaviour loyalism manifested itself differently in different territories This divergence is explored through a discussion of the role of loyal associations and military institutions loyalism's cultural and ritual dimensions and its key role in the formation of political identities Chronologically the book covers a pivotal period comprehending the American and French Revolutions the 1798 Irish rebellion and Irish Union the Canadian rebellions of 1837 and Fenianism and Home Rule campaigns throughout the British World Allan Blackstock is Reader in History at the University of Ulster and author of *Loyalism in Ireland 1789-1829* Boydell 2007 Frank O Gorman was Professor of History at the University of Manchester Contributors Allan Blackstock Richard P Davis Oliver Godsmark William Gould Jacqueline Hill Andrew R Holmes Kyle Hughes Mark G McGowan Donald M MacRaild Keith Mason Patrick Maume Katrina Navickas Frank O Gorman Brad Patterson Scott W See **Relocating Britishness** Stephen Caunce, 2004-11-27 Offering a range of original perspectives on how Britishness might be constructed at the turn of the millennium and where it might be going this volume pulls together various disciplines and a variety of geographical perspectives to offer a distinctive set of views for the understanding of Britishness and how it is expressed **Orange Order** Patrick Coleman, 2025-01-31 On a sunny day men and women march through the streets wearing orange collarettes and carrying colourful banners However this is not the Orange Order in Northern Ireland but the same organisation in Africa This book moves beyond the cliché to delve deeply into
