**Manifest Destiny's Underworld** Robert E. May,2002 Offering the first full scale analysis of the filibustering movement Robert May relates the often tragic stories of illegal expeditions into Cuba Mexico Ecuador Nicaragua and other Latin American countries and details surprising numbers of aborted plots as well May investigates why thousands of men joined filibustering expeditions how they were financed and why the U S government had little success in curtailing them Surveying antebellum popular media he shows how the filibustering phenomenon infiltrated the American psyche in newspapers theater music advertising and literature Condemned abroad as pirates frequently in language strikingly similar to modern American denunciations of foreign terrorists the filibusters were often celebrated at home as heroes who epitomized the spirit of Manifest Destiny Publisher s Website *Confederate Engineer* George G. Kundahl,2000 John Morris Wampler was a

topographical engineer in the Provisional Army of the Confederate States and eventually became chief engineer of the Confederate Army of Tennessee Based on extensive use of Wampler s unpublished correspondence and journals the biography follows his experiences before hostilities and then during the war in both major theaters It also draws on the writings of his wife Kate to show how she struggled to hold their family together during the fighting The combination of both the husband and wife s perspectives on the war makes this treatment unique Jacket *Masters and Lords* Shearer Davis

Bowman,1993-04-29 Among the regional landed elites in the Western World of the mid 1800s the two most formidable were the owners of slave plantations in the Southern states of the U S and the proprietors of manorial estates in the provinces of Prussian East Elbia Masters and Lords surveys the economic social and political histories of the two classes from the

seventeenth and sixteenth centuries respectively and pays particular attention to planters during the secession crisis of 1860 61 and to Junkers during the revolutionary crisis of 1848 49 In the process Bowman grapples with such ambiguous and contentious concepts as capitalism conservatism and paternalism Despite very different labor systems antebellum planters and contemporaneous Junkers alike presided over landed estates that functioned as both autocratic political communities and agricultural enterprises exporting valuable commodities to industrializing England This book also highlights important geographic demographic and political contrasts between the South and East Elbia as regional societies Bowman concludes that the crucial distinction between the two landed elites is to be found in the Junkers militarist and estatist monarchism versus the planters libertarian but racist republicanism *World Press Review* ,1983 **Civil War Times Illustrated**
