Ordinary Consumption:

Ordinary Consumption Jukka Gronow, Alan Warde, 2013-01-11 The sociology of consumption has concentrated unduly on the more spectacular and visual aspects of contemporary consumer behaviour thereby constructing an unbalanced and misleading view. This collection emphasises ordinary rather than extraordinary items routine and repetitive behaviour rather than conscious decision making. It studies practical contexts of use rather than decisions to purchase and analyses collective identification rather than personal identity. Each essay argues one or more of these points for the most part using new empirical material from several different national contexts. The topics analysed include shopping in Taiwan, second home ownership in France, environmental considerations concerning food choice in Denmark, the take up of new domestic technologies in Finland and kitchen design in England. Key concepts like tradition, routine and habit are clarified and new conceptual distinctions are made with the book defending theoretical approaches deriving from Simmel, Weber, Durkheim and Bourdieu. Ordinary Consumption promotes a distinctive approach to the understanding of the central practices of consumer society; it is a book with a controversial message one which will be a source of debate about the appropriate agenda for future research.

Ordinary Consumption GRONOW, Professor Alan Warde, 2000-01-01 **Encyclopedia of Consumer**

Culture Dale Southerton, 2011-09-15 The three volume Encyclopedia of Consumer Culture covers consuming societies around the world from the Age of Enlightenment to the present and shows how consumption has become intrinsic to the world's social, economic, political and cultural landscapes. Offering an invaluable interdisciplinary approach this reference work is a useful resource for researchers in sociology, political science, consumer science, global studies, comparative studies, business and management, human geography, economics, history, anthropology and psychology. The first encyclopedia to outline the parameters of consumer culture, the Encyclopedia of Consumer Culture provides a critical scholarly resource on consumption and consumerism over time. Some of the topics included are: Theories and concepts; Socio-economic change (e.g. social mobility, Socio-demographic change); i.e. immigration, aging, Identity and social differentiation; i.e. social networks; Media (e.g. broadcast media); Style and taste (e.g. fashion, youth culture); Mass consumptions (e.g. retail culture); Ethical Consumption (e.g. social movements, Civil society); i.e. consumer advocacy; Environment (e.g. sustainability); Domestic consumption (e.g. childhood, supermarkets); Leisure (e.g. sport, tourism); Technology (e.g. planned obsolescence); Work (e.g. post-industrial society); Production (e.g. post-fordism, global economy); Markets (e.g. branding); Institutions (e.g. religion); Welfare (e.g. reform, distribution of resources); Urban life (e.g. suburbs).

The Ethical Consumer Rob Harrison, Terry Newholm, Deirdre Shaw, 2005-04-23 Focusing on ethical consumers, their behaviour, discourses and narratives as well as the social and political contexts in which they operate, this text provides a summary of the manner and effectiveness of their actions.

Innovation by demand Andrew

McMeekin, Mark Tomlinson, Ken Green, Vivien Walsh, 2013-07-19 The structure and regulation of consumption and demand has recently become of great interest to sociologists and economists alike and at the same time there is growing interest in

trying to understand the patterns and drivers of technological innovation This book brings together a range of sociologists and economists to study the role of demand and consumption in the innovative process The book starts with a broad conceptual overview of ways that the sociological and economics literatures address issues of innovation demand and consumption It goes on to offer different approaches to the economics of demand and innovation through an evolutionary framework before reviewing how consumption fits into evolutionary models of economic development Food consumption is then looked at as an example of innovation by demand including an examination of the dynamic nature of socially constituted consumption routines The book includes a number of illuminating case studies including an analysis of how black Americans use consumption to express collective identity and a number of demand innovation relationships within matrices or chains of producers and users or other actors including service industries such as security and the environmental performance of companies The involvement of consumers in innovation is looked at including an analysis of how consumer needs may be incorporated in the design of high tech products The final chapter argues for the need to build an economic sociology of demand that goes from micro individual through to macro structural features An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
