Ordinary Enlightenment Experiencing Gods Presence In Everyday Life:

Ordinary Enlightenment John C. Robinson, 2000 Most books on mysticism are written through the author's religious lens and describe the divine only indirectly Ordinary Enlightenment sees through the lens of everyday life and shows how developing the ability to see with the mystical eye to have a direct perception of the divine is the key to transforming our lives This is a mystic's handbook written from personal experience It transcends theology and prescribed beliefs and cuts right to direct experience John C Robinson treats the mystical experience of God as natural and ordinary There are no miracles here just humans learning to recognize and experience our divine nature Mystical Activism John C.

Robinson, 2020-02-28 In *Mystical Activism* we each hold the power to change the world right where we are To call these end times is not hyperbole We are in trouble and the signs are everywhere extreme political divisions xenophobic violence enormous wealth inequity poverty and homelessness racism sexism and ageism arms buildups and unending wars and most critical of all terrifying climate disruption associated with man made global warming We are the cause of these dark times Driven by left brain beliefs illusions and obsessions humanity races headlong toward the collapse of civilization Fortunately the solution to these mounting crises also lies in the human psyche arising from a most surprising source the right brain's natural mystical consciousness Our survival depends on whether we grasp and resolve this paradox in time **The Divine**

Human John C. Robinson, 2016-09-30 With our unprecedented longevity aging has become a new developmental stage in the human life cycle Conscious sacred aging now offers humanity profound opportunities for psychological spiritual and mystical transformation expanding not only our lifespan but our awareness of God as well What if we discover in this awakening that we are already divine What if this realization transforms our very nature and purpose in the world *The Divine Human* answers these questions and more revealing the ultimate meaning of the New Aging **God and Dreams** John Pratt

Bingham, 2010-01-01 At one time when an individual wanted a direct personal experience of God that person turned to his or her dreams The early third century Christian defender of the faith Tertullian observed Is it not known to all people that the dream is the most usual way that God reveals himself to man Yet by the eleventh century King William II of England states They are not good Christians that regard dreams Why did this reversal of opinion occur not only in Christian thinking but in Jewish and Islamic attitudes also *God and Dreams Is There a Connection* traces the historic connection between God and dreams and examines why this shift happened While particular attention is given to Jewish Christian and Islamic thought several secular disciplines are discussed also After investigating the different points of view an argument is made that the connection between God and dreams still exists I Am God John C. Robinson, 2024-01-26 A paradigm shifting journey into God as Self and the World as Heaven on Earth Upon turning 75 I felt the compelling need to spend time in solitude to live more fully the mystical consciousness I have been writing about for 25 years As the experience deepened I began writing mystical poetry in the tradition of Hafez Rumi Kabir and Gibran Hundreds of verses poured forth an amazing surprise I had

found a new voice poetry became a new spiritual practice and wisdom and revelation now flow from the One One Consciousness God's consciousness fills the universe Everything contains and expresses it The world is alive awake aware loving and breathtakingly intelligent We each share this consciousness though we wrap it in personal identity and assume everyone's version is uniquely theirs What does this mean It means you have direct access to the consciousness of God This realization alone can begin your awakening Three Secrets of Aging John C. Robinson, 2012-07-27 The first wave of 76 million Baby Boomers representing 28 percent of the American population turns 65 in 2011 and they will live longer than any previous generation in history at least 15 years more than their parents creating an entirely new stage of human life
