Londonderry VI** Angélique Day, Patrick McWilliams, 1990      **Richard Griffith and His Valuations of Ireland** James R. Reilly (Genealogist), 2000 Richard Griffith b Dublin 1784 had already established himself as a distinguished geologist and inspector of Irish mines when in 1825 he was chosen to be Ireland's Boundary Surveyor Griffith's appointment coincided with the government's determination to achieve a uniform system of land measuring and valuing for the purpose of eliminating various inequities in levying the two main forms of local taxation in Ireland the tithe and the county cess at the townland level As the head of the Boundary Department of Ireland Griffith would spend the next forty years supervising land valuation in Ireland and in particular the great Ordnance Survey of Irish townlands which fixed local boundaries throughout the nation The Ordnance Survey documents comprising over 3 000 maps and 2 300 registers and Griffith's valuations of 1826 1846 and 1852 were the surviving products of Griffith's efforts and they constitute perhaps the greatest sources in all of Irish genealogy The content has been divided into two parts The first half of the volume treats the history and method used by Griffith and his colleagues in producing the valuations Here Reilly explains how the surveys were conducted how standard Irish forms of townland names were assigned how the descriptive Ordnance Survey Memoirs were compiled and what one can expect to find within their rich contents In separate chapters devoted to the three valuations Reilly describes among other things how the valuers assigned a value to property how the information was publicized and the relationship of the valuations to the new Irish Poor Laws Facsimile illustrations of maps memoirs and other documents from the valuations abound here as they do in the second half of the work a discussion of Griffith's genealogical importance      **The Shadow of a Year** John Gibney, 2013-02-15 In October 1641 a rebellion broke out in Ireland Dispossessed Irish Catholics rose up against British Protestant settlers whom they held responsible for their plight This uprising the first significant sectarian rebellion in Irish history gave rise to a decade of war that would culminate in the brutal re conquest of Ireland by Oliver Cromwell It also set in motion one of the most enduring and acrimonious debates in Irish history Was the 1641 rebellion a justified response to dispossession and repression Or was it an unprovoked attempt at sectarian genocide John Gibney comprehensively

examines three centuries of this debate The struggle to establish and interpret the facts of the past was also a struggle over the present if Protestants had been slaughtered by vicious Catholics this provided an ideal justification for maintaining Protestant privilege If on the other hand Protestant propaganda had inflated a few deaths into a vast and brutal massacre this justification was groundless Gibney shows how politicians historians and polemicists have represented and misrepresented 1641 over the centuries making a sectarian understanding of Irish history the dominant paradigm in the consciousness of the Irish Protestant and Catholic communities alike
