Making Art Work W. Patrick McCray, 2020-10-20 The creative collaborations of engineers artists scientists and curators over the past fifty years Artwork as opposed to experiment Engineer versus artist We often see two different cultural realms separated by impervious walls But some fifty years ago the borders between technology and art began to be breached In this book W Patrick McCray shows how in this era artists eagerly collaborated with engineers and scientists to explore new technologies and create visually and sonically compelling multimedia works This art emerged from corporate laboratories artists studios publishing houses art galleries and university campuses Many of the biggest stars of the art world Robert Rauschenberg Yvonne Rainer Andy Warhol Carolee Schneemann and John Cage participated but the technologists who contributed essential expertise and aesthetic input often went unrecognized Coming from diverse personal backgrounds this roster of engineers and scientists includes Frank J Malina the American rocket pioneer turned kinetic artist who launched the art science journal Leonardo and Swedish born engineer Billy Kliver who established the group Experiments in Art and Technology E A T At schools ranging from MIT to Caltech engineers engaged with such figures as artist Gyorgy Kepes and celebrity curator Maurice Tuchman Today we are in the midst of a new surge of corporate and academic promotion of projects and programs combining art technology and science Making Art Work reveals how artists and technologists have continually constructed new communities in which they exercise imagination display creative expertise and pursue commercial innovation
