

Making Better Use of the Social Resources Provided to Higher Education

For at least the last twenty years, the welfare of Americans has been redistributed along the axis of educational attainment. Those with *higher education* are holding their own against inflation. However, those who ended their educations in high school are far worse off today than they were two decades ago. This redistribution of human welfare has occurred under both Democratic and Republican presidents, Congresses, governors and legislators. The causes are not political. These are instead signs of economic evolution.

Economic systems originate in their primitive form where income and wealth are derived through exploitation of natural resources, such as mining, forestry, fisheries and agriculture. As economies grow and develop, physical capital investments add further to private and public income and wealth. Most recently, in the third stage of economic development, income and wealth are generated through investments in human capital - the minds and health of workers.

Labor market data collected and published in many forms by the federal government tell a consistent and dramatic story of change in the incomes of
