Making Horsehair Rope:

Making Horsehair Rope Diane Gadway, Richard Schneider, 1993 Women's Tales from the New Mexico WPA Tey Diana Rebolledo, MarÃ³a Teresa MÃ¡rquez, 2000-11-30 As part of the Works Progress Administration during the Depression two women interviewers Lou Sage Batchen and Annette Hesch Thorp gathered women's stories or *cuentos* from many native ancianas to glean vivid details of a way of life now long disappeared *The Material Culture of Basketry* Stephanie Bunn, Victoria Mitchell, 2020-10-29 The Material Culture of Basketry celebrates basketry as a culturally significant skilled practice and as a theoretically rich discipline which has much to offer contemporary society. While sometimes understudied and underappreciated, it has much in common with mathematics and engineering art, craft and design and can also act as a socially beneficial source of skill and care. Contributors show how local knowledge of materials, plants and place are central to the craft. Case studies include the skill in weaverbird nest building, challenging how we perceive learning in craft and nature, an engineer's perspective on twining Peruvian grass bridges and the local knowledge embodied in Pacific plaited patterns and knots. Photo essays explore materials and techniques from the point of view of artists, anthropologists and mathematicians, revealing how the structure and skill in basketwork illustrate a significant form of textile technology. Thus the book argues that the textures, patterns and geometric forms that emerge through basketwork reflect an embodied knowledge which expresses mathematical and engineering comprehension. The therapeutic value of the craft is recognised through a selection of case studies which consider basketry as a healing process for patients with brain injury, mental health problems and as a memory aid for people living with dementia. This reclaims basketry's significant role in occupational therapy as an agent of recovery and well-being. Finally, basketry's inherently sustainable nature is also considered, demonstrating the continuation of basketry in spite of handwork's general decline and profiling new and recycled materials. Above all, the book envisages basketry as an intellectually rewarding means of knowing. It presents the craft as embodying care for skilled making and for the social and natural environments in which it flourishes *Western Apache Material Culture* Alan Ferg, 2022-06-21 Western Apache Material Culture is a collection of essays specifically about the Guenther and Goodwin Western Apache ethnographic collections at the Arizona State Museum and about Western Apache culture. This is an important book and will become the standard reference on Western Apache material culture. American Indian Quarterly This book will surely appeal not only to those who are interested in the Apache material culture studies or the potential of Native American museum resources as cultural and historical documents but also to those who are concerned with the way humans adapted to the environment and thus utilized their world so well. African Arts It is a remarkably beautiful and detailed catalog of the Goodwin and Guenther collections of Western Apache artifacts in the Arizona State Museum and a lot more. A section of thirty two color photographs by award winning photographer Helga Teiwes is the delectable frosting on this rich and satisfying cake. *Journal of Arizona History* The Cowboy Encyclopedia Richard W.
