Walker, Mark Beach, 1975 Been There, Should've Done that Suzette Tyler, 2008 In this unintimidating pocket sized book students from colleges across the U S share their hot tips and solid strategies for success Their revelations and confessions provide a tell it like it is manual that will help new collegians as well as veterans avoid the pitfalls of campus life and maximize the countless resources Data confirms that retention of college students is based on their success in and out of the classroom This savvy easy reader reveals the academic and lifestyle management skills necessary for that success **Make the Most of It** Barry H. Corey, 2020 A perfect gift for High School graduates President of Biola University gives advice on how to make the most of their four years **Making College Work** Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially **Making College Pay** Beth Akers, 2021-05-18 A leading economist makes the case that college is still a smart investment and reveals how to increase the odds of your degree paying off Full of easy to understand advice grounded in deep expertise and research Martin West William Henry Bloomberg Professor of Education Harvard University The cost of college makes for frightening headlines The outstanding balance of student loans is more than 1.5 trillion nationally while tuitions continue to rise And on the heels of a pandemic that nearly dismantled the traditional college experience we have to wonder Is college really worth it From a financial perspective says economist Beth Akers the answer is yes It's true that college is expensive but once we see higher education for what it is an investment in future opportunities job security and earnings a different picture emerges The average college graduate earns an additional million dollars over their career compared to those who stopped their education after high school and on average two and four year schools deliver a 15 percent return on investment double that of the stock market Yet these

outcomes are not guaranteed Rather they hinge upon where and how you opt to invest your tuition dollars Simply put the real problem with college isn't the cost it's the risk that your investment might not pay off In *Making College Pay* Akers shows how to improve your odds by making smart choices about where to enroll what to study and how to pay for it You'll learn why choosing the right major can matter more than where you enroll the best criteria for picking a school hint not price selectivity or ranking why working part time while enrolled might set you back financially why it's often best to borrow even if you don't have to the pros and cons of innovative alternatives to traditional college how to take advantage of new low risk financing tools Full of practical advice for students and parents *Making College Pay* reminds us that higher education remains an engine for opportunity upward mobility and prosperity

Make College Yours Layli Liss, 2021-08-16 Most people think that getting ready to start college classes means buying a textbook and reading a syllabus In reality entering college is like entering a whole new world with new expectations and ways to interact and grow The transition is rarely easy but you can take ownership of your experience in college *Make College Yours* Mindsets and Methods for College Success is designed for students in First Year Experience or similar courses at the college level This text combines evidence based instructional content with insightful anecdotes from students of varying backgrounds In this book you'll find personal stories of college students grappling with the same problems and issues you'll grapple with stories that are as relatable as they are complex In these pages you'll find lots of helpful lessons about the basics of starting college like Improving study skills Combating test anxiety Being a good group member Developing a growth mindset Making campus connections Becoming an active learner *Make College Yours* goes way beyond the basics too This book will also teach you about major life skills including Learning to persist through difficult times Managing negative emotions Understanding personal agency Making wise choices Taking responsibility for your own growth Overcoming procrastination

Making it in College Colleen Cooper, Annie Sullivan, Judy Shulman, 1977 *College and the Working Class* Allison L. Hurst, 2012-03-26 What are the meanings experiences and impact of college for working class people The author of this book addresses the two questions what is college like for working class students and what is college for the working class In *The Other Three Percent* the author draws on a wealth of previous research to tell the stories of five very different working class college students as they apply to enter successfully navigate and complete college Through these stories readers will learn about the obstacles working class students face and overcome the costs and effectiveness of higher education as a mechanism of social mobility and the problems caused on our college campuses by our reticence to meaningfully confront the class divide Readers will be invited to compare their own experiences of higher education with those of the students here described and to evaluate their own institutions openness towards working class students through a series of checklists provided in the book's conclusion Allison L Hurst is Assistant Professor in the Department of Sociology at Furman University in Greenville South Carolina She is a member of the Association of Working Class Academics
