Advance Directives in Mental Health Jacqueline Atkinson, 2007-07-15

Advance directive AD is a way of making a person's views known if he or she should become mentally incapable of giving consent or making informed choices about treatment in the future. This book advises users on their choices about treatment in the event of future episodes of mental illness covering all legal and medical aspects of AD.

Decision-Making in Midwifery Practice Maureen D. Raynor, Jayne E. Marshall, Amanda Sullivan, 2005-06-01. The book looks at a broad perspective of decision making and each chapter focuses on a specific aspect related to making crucial decisions. Following an initial introduction, the book explores the concept of autonomy and the many factors that influence autonomous practice. The role of knowledge in decision making using evidence to inform decisions as well as different approaches to decision making are also examined, including the traditional or rational approach, decision analysis, and the development of professional judgement. Dilemmas arise when decisions are made, and therefore ethical decision making is an important component of this book. Management decisions may be different from those related to giving specific care to women; hence, one chapter focuses on making management decisions. Emphasis is also placed on the role of the midwife in helping women make their own decisions, the role of reflection in enhancing the decisions midwives make, and the support midwives can receive from their Supervisor of Midwives. Flowcharts explain and facilitate the decision making process. A very practical approach to decision making in midwifery with contributions from midwives who have considerable experience in this area. Provides guidelines on how to achieve successful autonomous midwifery practice, enabling theory to be effectively applied to practice. Includes coverage of management roles and decision making as well as clinical scenarios offering frameworks and flowcharts to guide the inexperienced. Suggests different approaches to making difficult decisions.
